Caution Forward-looking statements

This Annual Report (containing all the reports and information) may contain forward looking information to enable the investors to comprehend our prospects and take informed investment decisions. This report and other statements- written as well as the oral- that we periodically make, contain forward-looking statements that sets out anticipated results based on the management's plans and assumptions. We have tried, wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', hopefully, optimistic, likely, projects, intends', 'plans', believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risk or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected.

We undertake no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.

ANNEXURE I TO NOTICE

Explanatory Statement as required by Section 102 of the Companies Act, 2013.

In conformity with the provisions of Section 102 of the Companies Act, 2013, the following Explanatory Statements set out all material facts in respect of Items of Special Business mentioned at **Sr. No. 3 to 10** of the Notice dated 16th May, 2019.

In respect of Item No. 3:

In accordance with the provisions of Section 148(2) and 148(3) read with The Companies (Cost Records and Audit) Rules, 2014, the Company is required to appoint a Cost Auditor for audit of the cost accounting records maintained by the Company in compliance of the applicable provisions. Based on the recommendation of the Audit Committee, the Board of Directors have appointed Shri B. C. Desai as the Cost Auditor for conducting the audit of Cost Accounting Records maintained by the Company for the 'Textiles' products manufactured and marketed by the Company for the year 1st April, 2019 to 31st March, 2020 on a proposed remuneration of ₹ 6,25,000/- plus taxes and re-imbursement of out of pocket expenses incurred for the purpose of the audit. The Board of Directors recommend passing of the Resolution at Item No. 3 of the Notice.

None of the Directors, Key Managerial Personnel and/or their relatives is concerned or interested in the resolution.

In respect of Item No. 4

Shri Atul Kumar Srivastava (holding DIN: 00046776), aged 67 years, is a Science Graduate and a Chartered Accountant having an experience of over 45 years at various companies in the field of corporate finance, accounts, legal, commercial, restructuring etc. He was re-appointed as a Non-Executive Non-Independent Director of the Company at 103rd Annual General Meeting of the shareholders of the company held on 2nd August, 2017 liable to retire by rotation. He is a member of CSR Committee and Chairman of Stakeholders Relationship Committee of the Board.

The Company has received declaration and confirmation from Shri Atul Kumar Srivastava inter alia confirming that he meets the criteria of independence as prescribed under Section 149 of the Companies Act, 2013 and as per SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended and that he does not suffer from any disqualifications for his appointment as Independent Director and consented for the appointment.

After due performance evaluation of Shri Atul Kumar Srivastava carried out based on the criteria of evaluation framed, and recommended by the Nomination and Remuneration Committee, the Board of Directors of the Company at their meeting held on 16th May, 2019 has approved his appointment as an Independent Director of the Company, not liable to retire by rotation, for a period of 5 consecutive years viz. from 5th August, 2019 to 4th August, 2024 subject to the approval of the shareholders.

In the opinion of the Board, Shri Atul Kumar Srivastava fulfils the conditions specified in the Companies Act, 2013 and rules made thereunder read with the provisions of SEBI (LODR) Regulations, 2015 as amended for his appointment as an Independent Director of the Company and in respect of whom the Company has received notices in writing under section 160 of the Act from members of the Company proposing his candidature as an Independent Director. He is independent of the Company's Management & Promoters. Having regard to his qualifications, knowledge and experience, his appointment as an Independent Director will be in the interest of the Company. He does not hold any shares in the Company.

The draft letter for appointment to be issued to Shri Atul Kumar Srivastava as an Independent Director setting out the terms and conditions would be available for inspection without any fee by the members at the Registered Office of the Company during normal business hours on any working day (Monday - Friday). The Board recommends his appointment as an Independent Director.

None of the Directors, key managerial personnel and / or their relatives, are concerned or interested in the resolution except Shri Atul Kumar Srivastava and his relative/s.

In respect of Item Nos. 5 & 6:

Shri Vilas R. Gupte (holding DIN: 00011330), aged 74 years (date of birth 09/09/1944) is a Commerce Graduate and a Chartered Accountant. He is on the Board of the Company since 30th May, 2013. He has experience of more than 51 years with various companies in the field of corporate management, Finance, legal and commercial matters. He is presently a Non-Executive Independent Director on the Board of Directors of the Company. He is a Member of Nomination & Remuneration Committee and Chairman of Audit Committee of the Board.

Shri Pradip N. Kapadia (holding DIN: 00078673), aged 67 years, is Bachelor in Arts and Law Graduate. He is a renowned Advocate and Solicitor having experience of more than 45 years in the legal field. He is a partner of Vigil Juris, Advocates & Solicitors, Mumbai. He is on the Board of the Company since 30th May, 2013. He is presently a Non-Executive Independent Director of the Company. He is a member of the Stakeholders Relationship Committee and Chairman of the Nomination & Remuneration Committee of the Board.

Shri Vilas R Gupte and Shri Pradip N. Kapadia were appointed as Independent Directors of the Company by the shareholders of the Company at their 100th Annual General Meeting (AGM) held on 5th August, 2014 for a period of five consecutive years. Accordingly, the first term of their appointment is expiring on 4th August, 2019.

After due performance evaluation of Shri Vilas R. Gupte and Shri Pradip N. Kapadia carried out based on the criteria of evaluation framed, and recommended by the Nomination and Remuneration Committee, the Board of Directors of the Company at their meeting held on 16th May 2019 have approved their re-appointments as Independent Directors of the Company, not liable to retire by rotation, for a second term for a period of 5 consecutive years viz. from 5th August, 2019 to 4th August, 2024 subject to the approval of the shareholders.

The Company has received declarations and confirmations from both these directors inter alia confirming that they meet the criteria of independence as prescribed under the Companies Act, 2013, Rules made there under and SEBI (LODR) Regulations, 2015 as amended and that they do not suffer from any disqualifications for their re-appointment as Independent Directors and consented for their re-appointments.

In the opinion of the Board of Directors of the Company, Shri Vilas R. Gupte and Shri Pradip N. Kapadia fulfil the conditions specified in the Companies Act, 2013 and rules made thereunder read with the provisions of SEBI (LODR) Regulations, 2015 for their re-appointments as Independent Directors of the Company. Further, pursuant to the provisions of Section 149 and other applicable

provisions of the Companies Act, 2013 and SEBI (LODR) Regulations, 2015 as amended, they will not be liable to retire by rotation. The Company has also received notices under section 160 of the Act from the members of the Company proposing their candidature for the re-appointments as Independent Directors of the Company. Both the Directors are Independent of the Company's Management & Promoters. Having regard to their qualifications, knowledge and experience, their re-appointment as Independent Directors of the Company, in the opinion of the Board of Directors, will be in the interest of the Company.

Shri Vilas R. Gupte holds 2 equity shares of ₹ 10/- each of the Company while Shri Pradip N. Kapadia holds 138 equity shares of ₹ 10/- each of the Company. Shri Vilas R. Gupte shall cross the age of 75 years during his proposed tenure, and therefore as required under the provisions of SEBI (LODR) Regulations, 2015, it is proposed to pass a Special Resolution for his re-appointment. He is keeping good health and active.

The Board recommends passing of the special resolutions for their reappointment as Independent Directors of the Company.

The draft letters of re-appointments proposed to be issued to Shri Vilas R. Gupte and Shri Pradip N. Kapadia as Independent Directors of the Company, setting out the terms and conditions of appointment, would be available for inspection without any fee by the members at the Registered Office of the Company, during normal business hours on any working day (Monday to Friday).

None of the Directors, key managerial personnel and/or their relatives are concerned or interested in the Resolution except Shri Vilas R. Gupte and Shri Pradip N. Kapadia and their relative/s.

Presently, he is a Non-Executive Independent Director of the Company and he is a member of Audit Committee and Nomination & Remuneration Committee of the Board.

Shri Sujal A. Shah (holding DIN 00058019) aged 50 years is a Commerce Graduate and a Chartered Accountant. He has an experience of over 28 years in the fields of Valuations, Due Diligences, Corporate Restructuring and Advisory. He is founder Partner of SSPA & Company, Chartered Accountants, Mumbai. Presently, he is a Non-Executive Independent Director of the Company and he is a member of Audit Committee and CSR Committee of the Board.

Based on the recommendation of the Nomination & Remuneration Committee, the Board of Directors of the Company had appointed Smt. Latika P. Pradhan as an Independent Director w.e.f. 17th April, 2015 likewise Shri Gautam G. Chakravarti and Shri Sujal A. Shah were appointed as Independent Directors w.e.f. 30th May, 2015. The shareholders of the Company had, at their 101st Annual General Meeting (AGM) held on 12th August, 2015, approved their appointment as Independent Directors of the Company for a period of five consecutive years.

Accordingly, the first term of the appointment of Smt. Latika P. Pradhan, Shri Gautam G. Chakravarti and Shri Sujal A. Shah as Independent Directors of the Company is expiring on 16th April, 2020, 29th May, 2020 and 29th May, 2020 respectively. Since all these expiry of terms of appointment will be much prior to the 106th AGM which, as a practice would be scheduled around July/August, 2020, the resolutions for their re-appointments are proposed for approval at the ensuing 105th AGM.

After due performance evaluation of these Independent Directors carried out based on the criteria of evaluation framed, and recommended by the Nomination and Remuneration Committee, the Board of Directors of the Company at their meeting held on 16th May, 2019 have approved their re-appointment as Independent Directors of the Company, not liable to retire by rotation, for a second term for a period of five consecutive years viz. for Smt. Latika P. Pradhan from 17th April, 2020 to 16th April, 2025 and for Shri Gautam G. Chakravarti and Shri Sujal A. Shah from 30th May, 2020 to 29th May, 2025, subject to the approval of the shareholders.

The Company has received declarations and confirmations from all these directors inter alia confirming that they meet the criteria of independence as prescribed under Companies Act, 2013, Rules made there under and SEBI (LODR) Regulations, 2015 as amended and that they do not suffer from any disqualifications for their re-appointment as Independent Directors and consented for the re-appointments.

In the opinion of the Board, Smt. Latika P. Pradhan, Shri Gautam G. Chakravarti and Shri Sujal A. Shah fulfil the conditions specified in the Companies Act, 2013 and rules made thereunder read with the provisions of SEBI (LODR) Regulations, 2015 for their re-appointment as Independent Directors of the Company. Further, pursuant to the provisions of Section 149 and other applicable provisions of the Companies Act, 2013 and SEBI (LODR) Regulations, 2015 as amended, they will not be liable to retire by rotation. The Company has also received notices in writing under section 160 of the Act from the members of the Company proposing their candidature for the re-appointment as Independent Directors of the Company. All the aforesaid directors are independent of the Company's Management & Promoters. Having regard to their qualifications, knowledge and experience, their re-appointments as Independent Directors of the Company, in the opinion of the Board of Directors, will be in the interest of the Company. None of these Directors, hold any shares or voting rights in the Company. The Board recommends passing of the requisite special resolutions for their re-appointment as Independent Directors of the Company.

The draft letters of re-appointments proposed to be issued to Smt. Latika P. Pradhan, Shri Gautam G. Chakravarti and Shri Sujal A. Shah, as Independent Directors of the Company, setting out the terms and conditions of their re-appointment, would be available for inspection without any fee by the members at the Registered Office of the Company, during normal business hours on any working day (Monday to Friday).

None of the Directors, key managerial personnel and/or their relatives are concerned or interested in the Resolution except Smt. Latika P. Pradhan, Shri Gautam G. Chakravarti and Shri Sujal A. Shah and their relative/s.

In respect of Item No. 10

At the last Annual General Meeting (104th AGM), the Members had passed a resolution to reclassify Shri. Vishad P. Mafatlal, his family members and the Companies including Navin Fluorine International Limited (NFIL) under their control from "Promoters" and "Promoter Group" category to "Public" category. Thereafter pursuant to the application of the Company, BSE Limited (stock exchange where the Company's equity shares are listed) had granted approval for the said reclassification. Accordingly, those shareholders have been reclassified under Public category. As at 31st March, 2019, NFIL is holding 2,63,616 equity shares of ₹ 10/- each of the Company under Public category.

The Company recently received applications from the Entities/Trusts as mentioned in the Special Resolution proposed at item no. 10 (hereinafter referred to as "applicants") managed by Shri Vishad P. Mafatlal and his associates/concerns for reclassification of their status from "Promoter" and "Promoter Group" to "Public". These entities in the aggregate holds 24255 Equity shares of ₹ 10/- each in the Company (0.17% of the paid up share capital) as on 31st March, 2019 and as on 16th May, 2019.

The said applications were approved by the Board of Directors of the Company at their meeting held on 16th May 2019.

After obtaining approval from the members of the Company, the requisite applications seeking reclassification will be made by the Company to the stock exchange in conformity with the applicable provisions of law. It is pertinent to note that the provisions of Regulation 31A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended, provides a regulatory mechanism for reclassification of "Promoter" as "Public Shareholders" subject to fulfillment of conditions as provided therein. The proposed reclassification is not pursuant to Regulations 31A (5) or (6) of the aforesaid Regulations since neither the new promoter is replacing the previous promoters nor is the listed company becoming professionally managed without identifiable promoter. However, as a matter of abundant precaution, it is proposed to take the approval of the Members of the Company for the proposed reclassification.

The applications for reclassification have been made by the said applicants on the following representations and grounds:

1. The applicants do not have any special rights and there is no voting arrangement (formal or informal) with any other party.
2. Neither the applicants nor their promoters directly or indirectly exercise control over the affairs of the Company.
3. The applicants along with persons acting in concert with them do not hold more than 10% of the paid-up equity capital in the Company.
4. No regulatory action is pending against the applicants who wish to be reclassified as public.
5. The applicants and their promoters and relatives shall not act as Key Managerial Personnel of the Company.

The Board of Directors recommends passing of the Resolution at Item No. 10 as a special resolution.

None of the Directors, Key Managerial Personnel and/or their Relatives are concerned or interested in the Resolution, except Shri H. A. Mafatlal and Shri Priyavrata H. Mafatlal being relatives of Shri V. P. Mafatlal they may be deemed to be concerned or interested in the resolution.

2. Overview, State of Company Affairs and Year in Retrospect

During the year under review, the textile industry remained fragile with stressed working capital cycles, over capacity, increased costs of raw material and a negative financial outlook for the industry. While in the past few years, various incentives and schemes were rolled out by the Government to boost the growth of the sector for the long term, at present the Denim industry in particular, is reeling under consequences of huge overcapacity. On the International front, Indian Textile industry seems to be losing out against Bangladesh and Vietnam in terms of the cost competitiveness.

During the year under review the Company faced strong headwinds and got severely impacted by the excess capacities and cost-competitiveness vis-a-vis new players who operate with low-cost structures (especially for Denim fabric), disruptions in the Middle-East markets affecting export of Voiles, subdued retail demand for apparels and readymade garments affecting sale of Printed fabric in the business-to-business (B2B) segment and prolonged credit cycle in general prevailing in the textile industry. This resulted in a fall in revenue as well as operating profitability. Total Revenue fell by 12% to ₹ 1,05,457.89 Lakhs and EBIDTA is reported negative at ₹ 3,030.72 Lakhs leading to a Net Loss for the year of ₹ 18,007.04 Lakhs (including ₹ 8,361.80 as an impairment charge) as against a Net Loss of ₹ 4,177.82 Lakhs for the previous year.

For more than two years, the Company has been passing through an extremely challenging business situation, particularly with respect to the Denim operations. The Denim Industry attracted major capacity expansions in the recent past and the installed capacity for Denim fabric manufacturing in India which was around 500 million meters in the year 2011 has shot up to almost 1.4 billion meters by the end of year 2018. Since domestic demand for the Denim fabric is not matching the pace of growth in supply, the entire Denim Industry has been struggling for growth and has been operating at sub-optimal installed capacities and operating margins. In the light of this situation, the Company took several steps for improving the Denim operations, such as change in the management team, more focus on product development and driving cost reduction. While the performance of Denim for the first quarter of the year 2018-19 did indicate some improvement, the performance was on a downward spiral from second quarter onwards. In order to curtail losses from Denim operations in the backdrop of severe competition in the domestic market, the Company took the strategic decision to significantly scale down the operations based on a detailed analysis carried out with the help of a multinational independent management consultant. The Company also substantially reduced its work force at a cost of ₹ 1,827.45 Lakhs which has been recognised as expenditure in the Profit & Loss Account for the financial year 2018-19.

Despite taking series of initiatives, there has been no improvement in Denim operations and hence the Company is substantially scaling down the Denim operations to further curtail the losses. With the scaling down of operations, the Company is contemplating sale of surplus assets at Navsari. The funds so raised will be utilized by the Company to settle its liabilities towards ex-gratia payments (VRS) to employees, repayment of loans, creditors and other liabilities. The sale of assets as mentioned hereinabove, may tantamount to selling, leasing, or disposing of substantially the whole of the Undertakings at Navsari as envisaged under the provisions of Section 180 of the Companies Act, 2013. It will exceed 20% of the value of the Undertaking/s of the Company

at Navsari as per the audited financial statements of the Company for the year ended 31st March, 2019. Accordingly, as required under the provisions of Section 180(1) (a), Section 110 and other applicable provisions of the Companies Act, 2013, Rules made thereunder and SEBI (LODR) Regulations, 2015 and other applicable provisions, the special resolution with respect thereto is being proposed for the approval of the members of the Company by way of postal ballot for which separate notice is given to the members of the Company.

Your Directors are of the view that this strategic decision may inflict some pain in the short term, but it will turn the Company profitable in future.

A further analysis of the financial results of the Company is given in the Management Discussion and Analysis Report which forms part of this report.

3. Borrowings, Loans, Guarantees and Investments

During the year under review, the company has repaid long term borrowings amounting to ₹ 2,380.39 Lakhs as per scheduled timeline and raised loan funds of ₹ 275.96 Lakhs to part finance the liabilities and payments of the Company including VRS/ex gratia payments to the workers of Navsari units.

The Company expresses gratitude to all the term loan and working capital lenders for their continuing support and faith in the company. The Company has not granted any loan, given any guarantee or made any investments as referred to in section 186 of the Companies Act, 2013.

During the year, the Company has sold 7,48,860 equity shares of NOCIL Limited. It has also sold its non core investments in three private limited companies viz. Mafatlal Impex Private Limited (2 equity shares), Arvi Associates Private Limited (10,000 equity shares), Suremi Trading Private Limited (20 equity shares). The sale price for the said shares were above fair value calculated as per the Valuation Report received from an independent valuer and the requisite details of related party transactions are mentioned in the Annexure to this report.

4. Credit Rating/s

During the year Credit Analysis & Research Limited (CARE) has reaffirmed the credit rating of the Company "CARE BBB- (negative)" for the long term facilities having tenure of more than one year and "CARE BBB- (negative)" / "CARE A3" for short term facilities having tenure of upto one year.

5. Dividend

In view of the Losses for the financial year ended 31st March, 2019 continuing since previous years, the Board of Directors regret their inability to recommend any dividend for the year 2018-19 and accordingly, has not recommended/proposed declaration of any dividend.

6. Restructuring of Promoters Shareholding & Reclassification of Promoters Holding

As approved by the shareholders at 104th AGM held on 31st July, 2018 and consequent approval by the BSE Limited where the Company's shares are listed, certain promoters forming a part of Shri V. P. Mafatlal and his associates, concerns and entities managed by his group were reclassified as non promoters/public category. Further, certain more trusts/entities managed by Shri V. P. Mafatlal and his associates are now proposed for reclassification as non promoters/public shareholders for which requisite resolution as approved by the Board of Directors of the Company as per the requirements of the Stock Exchange/s has been proposed at the ensuing Annual General Meeting and later on requisite application/s will be made to the Stock Exchange for reclassification.

7. Details of changes of Directors and Key Managerial Personnel

Deshmukh, Managing Director & Chief Executive Officer had resigned, and accordingly was relieved of his services at the close of business hours on 31st March, 2019. The Board put on record its sincere appreciation of his services during his tenure with the Company. As recommended by the Nomination & Remuneration Committee, the Board had, at their meeting held on 17th December 2018, appointed Shri Priyavrata H. Mafatlal, a whole time director of the Company {who was designated as Executive Director} as Chief Executive Officer (CEO) w.e.f. 1st April, 2019 and also re-designated him as CEO & ED and appointed him as a whole time key managerial person (WKMP) of the Company under the provisions of Section 203 of the Companies Act, 2013 on the same terms and conditions of the appointment letter issued earlier on 25th October, 2016 as approved by the shareholders earlier except the above changes in designation and appointment. The requisite special resolution with respect to his appointment as CEO and WKMP and the approval for payment of remuneration for his balance term of appointment w.e.f. 1st November, 2019 to 31st October, 2021 as required under the provisions of Schedule V to the Companies Act, 2013 is being proposed as a part of postal ballot notice issued to the shareholders separately.

Pursuant to the provisions of Section 152 of the Companies Act, 2013, Shri Hrishikesh A. Mafatlal, Chairman, is liable to retire by rotation and being eligible offers himself for reappointment and the same is proposed for approval at the ensuing Annual General Meeting (AGM).

Further, the Board has at their meeting held on 16th May, 2019, approved and proposed for approval by the shareholders at this ensuing AGM, the appointment of Shri Atul K. Srivastava as an Independent Director of the Company, the re-appointments of Shri Vilas R. Gupte, Shri Pradip N. Kapadia, Smt. Latika P. Pradhan, Shri Gautam G. Chakravarti and Shri Sujal A. Shah as Independent Directors of the Company and accordingly requisite resolutions are proposed for the approval of the shareholders at the ensuing AGM. The Board recommends their appointment/reappointments being in the interest of the Company.

8. Employee Stock Option Scheme, 2017

The shareholders of the Company at the 103rd Annual General Meeting of the Company held on 2nd August, 2017 consented for creation of 6,95,000 options employee stock option pool under Mafatlal Employee Stock Option Plan, 2017 by way of a special resolution. The Board of Directors of the Company has, as per the recommendation of Nomination & Remuneration Committee (NRC) approved "Mafatlal Employees Stock Option Plan 2017. Thereafter, NRC has at their meeting held on 10th November, 2017 approved the grant of 1,38,000 options to certain senior management employees. Since then, there has been no further grant as of date and due to the resignations of the employees (option grantees) as at 31st March, 2019, 72,000 options remained outstanding (valid) out of the said 138,000 while remaining options lapsed and went back to the Option Pool available for further grants in future. There has been no exercise of vested options as of date. Annexure I to Directors' Report

Management Discussion and Analysis

1. Overview of the Economy

Indian economy started the fiscal year 2018–19 with a healthy 8% growth in the first quarter on the back of domestic resilience. Growth eased to 7% in the subsequent quarter due to rising global volatility, largely from financial volatility, normalized monetary policy in advanced economies, trade disputes, and investment rerouting. Further, the Indian rupee suffered because of the crude price shock, and conditions exacerbated as recovery in advanced economies caused faster investment outflows.

Second half of the year witnessed slower growth in GDP, majorly affected by slowdown in global economic activities, elevated trade tensions, tighter financial conditions and appreciation in exchange rate. GDP growth was reported at 6.6% in Q3. For the year 2018-19 latest estimates for GDP growth is 7% compared to growth rate of 7.2% in 2017-18.

2. Overview of Textile Sector

Growth in the textile sector largely depends on consumer spending and multiple factors are affecting consumer spending like actual and perceived economic condition, disposable income, employment and consumer credit availability. During the year 2018-19 India's domestic demand strengthened as the country reaps the benefits of structural reforms and of a revival of credit growth.

The Government of India has approved a new skill development scheme named 'Scheme for Capacity Building in Textile Sector'. A special package has been announced to boost exports by US\$ 31 billion, create one crore job opportunities and attract investments worth ₹ 800.00 billion (US\$ 11.93 billion) during 2018-2020. As of August 2018, it generated additional investments worth ₹ 253.45 billion (US\$ 3.78 billion) and exports worth ₹ 57.28 billion (US\$ 854.42 million).

In 2018-19, China, the world's largest apparel manufacturer and exporter, continued to shed market share in the global trade but India was not able to capitalise on the opportunity. Instead, a large chunk was garnered by Bangladesh and Vietnam, the second and the third largest apparel exporting nations globally. While Bangladesh is a key beneficiary in the European Union, Vietnam has strengthened its growth in the United States.

3. Overview of the Company Performance and Outlook

The Business environment for the Company continued to remain challenging in year 2018-19 for multiple reasons which have adversely impacted financial performance too.

While various incentives announced by the Government for Textile Industry augurs well for growth of the industry in medium to long term; however, at present the fabric market is still reeling under the after-effects of demonetisation and introduction of GST. Acute liquidity crunches continue to prevail in domestic fabric markets which reduced the working capital churns for all participants, from manufacturers to traders. The sluggish demand for apparels and readymade garments kept the demand for fabric from organised retailers and brands muted. The rotation of working capital was further impacted by more stringent financial guidelines and negative financial outlook for cotton ginners, yarn spinners and dealers. This pushed up the norms of credit period in the market significantly.

During last few years, Textile industry, especially Denim manufacturing has attracted significant new capital investment under incentive schemes announced under TUF schemes, which has now resulted into excess capacity in the industry. Most of the new manufacturers, especially entrepreneur managed set-ups, have a significant cost advantage over the old and professionally managed manufacturers in terms of lower overheads, labour cost and newer technologies. This, along with their zest for acquiring higher market share, has led to price wars in the domestic market, eroding the margins for the industry. Overall textile Industry is also going in the transformation mode where focus remains towards keeping value added process and forward integration instead of basic manufacturing capabilities. Mills are closing down the basic manufacturing capacities like spinning and weaving to outsource the same with comparatively low-cost setups.

During the year, raw material prices also moved up significantly on account of higher cotton prices (by 10% over FY18), higher colour and chemical prices due to higher crude oil prices and environmental sanctions in China which led to stoppage of production at many Chinese chemical manufacturers creating supply side shortage.

Amidst such turbulent times the Company carried out, with the assistance of an independent management consultant, a detailed analysis of its product portfolio, and based on the analysis took a strategic decision of gradually scaling down the manufacturing and selling of loss making products - Denim fabric. While this will reduce the Company's turnover in the short term, the operations will turn profitable in medium term, total debt will fall sharply and the financial position and the Balance Sheet of the Company will significantly improve.

7	Net Profit Margin (%) (before exceptional items)	-9.1%	-3.5%

Note: The reasons for the changes in Key Financial Ratios are as explained herein and in Directors' Report.

Revenue from Operations and Other Income

Total Revenue of the Company declined by 12% over previous financial year. Other Income (consisting of Interest Income, Dividend Income from Long Term Investments, Net Gain on Foreign Currency Transactions and Other Non-Operating income) has also declined by 6% compared to previous year.

Debt

The Company repaid net ₹ 2,380 Lakhs in long-term debt which is primarily in the form of rupee-term loans in line with its repayment schedule. Net short-term borrowings decreased by ₹ 558 Lakhs. Borrowings were maintained to provide working capital support to the company in core operations.

Finance Costs

The finance cost for FY 18-19 were ₹ 3,019 Lakhs as against ₹ 3,109 Lakhs for FY 17-18. The decrease in finance cost is primarily on account of reduction in overall borrowings. Finance Cost as a percentage to Total Revenue however remained almost unchanged.

Depreciation

Depreciation in absolute terms decreased to ₹ 3596 Lakhs as compared to ₹ 3611 Lakhs in FY 17-18. As a percentage to Total Revenue, Depreciation remained almost unchanged.

Exceptional item

As mentioned earlier, during the year, the Company has undertaken certain strategic initiatives to restructure its fabric products portfolio and rationalise its operations which will result in cost reduction for future. As a part of this initiative, the Company has carried out detailed profitability analysis of its fabric products portfolio and based on such analysis had decided to scale down its

manufacturing operations at Navsari plant. Consequent to this decision, the Company has reviewed the utilisation of Property, Plant and Equipment, employee strength, net realisable value of inventories and balance recoverable from existing customers considering that the operations of the plant has been substantially scaled down effective April 1, 2019. Accordingly, the Company has written-down select assets under Property, Plant and Equipment, Inventories, Receivables and provided for one-time employee liabilities as exceptional items as under

		(₹ in Lacs)
Property Plant and Machinery (net of all associated cost*)	:	3,925.43
One-time employee liabilities	:	1,827.45
Write-down of current assets (Includes inventories, select receivables and other assets)	:	2,608.92
Total	:	8,361.80

* Balance realisable value is classified as "assets held for sale".

Human Resources and Safety

During the year Company had to take the painful decision of retrenching workers as well as management staff in the most amicable manner, by making the payment of ex-gratia one-time compensation/VRS, consequent to its decision of downsizing of manufacturing at its Navsari plants. The Company does believe that people are key enablers to bring the turnaround and growth of the business. The Company is emphasizing on creating a performance driven organisation where talent and merit is suitably rewarded. The Company continuously takes initiatives and measures towards building a workplace with safe work practices. The total number of Employees as at 31st March, 2019 is 2,377.

Product Portfolio Performance

As the Textile industry has an inverted duty structure under the GST regime, the excess of taxes on inputs over taxes on output remains accumulated which has led to blocking of funds in the form of accumulated GST credit for all; manufacturers, dealers and vendors, creating stress on working capital in a scenario where there is already acute liquidity shortage. In such a situation, demand for domestic trade for Company's fabric remained sluggish. In order to push the sales, the Company had to offer higher commissions and incentives to its dealers, for its 'over the counter products', which led to lowering the price realisation and consequently operating margins.

Growth in both sales volume as well as sales value remained flat in year 2018-19 as compared to previous year. The operating margins for the year 2018-19 were significantly down on account of low volumes & higher input costs. The Cotton cost was up by 10%, Polyester Fibres prices were up by 27% and Viscose Fibre prices were up by 5%. On account of sluggish demand situation, Company could not pass on increase in input cost to customers resulting in to squeeze in the operating margins.

The export of Voiles got badly impacted on account of continued geo-political disruption in our primary markets due to war in Yemen and continued political disturbances and economic issues in Saudi Arabia, Sudan, Dubai, Mauritania and Yemen.

On the positive side, the Company's leadership position in School and Corporate Uniform fabrics/garments remains intact and is expected to further strengthened in short to medium term. The Ladies wear products and Home Furnishing business also grew satisfactorily.

The Company further aims to strengthen textiles by focusing on Prints, where we have emerged as one of the leading suppliers to domestic & international brands, by expanding its Digital Printing capacities during the year under review. The Company has also decided to refocus the Ladies Blouse & Dress Material segment where Mafatlal had a large presence years ago. Under this scenario, the Company remains cautiously optimistic for Textiles.

The year 2018-19 was particularly very difficult for the entire Denim industry. The de-growth momentum continued for the third consecutive year post Demonetization/GST. Most of the Denim manufacturers liquidated their large inventories, which had piled-up in the previous years. This resulted in a sharp fall in selling prices, eroding the operating margins completely. While the performance of Denim for Q1 for the year under review was comparatively less stressed, the performance was on a downward spiral from Q2 onwards, and by the end of H1, the performance was at its lowest. In order to arrest the losses from Denim, the Company took the strategic decision to scale down its operations based on a detailed analysis carried out with the help of a multinational independent management consultant. In tandem with the decision to downsize the operations, the Company reduced workforce of denim by paying VRS of ₹ 1827 lacs.

The Company has a pessimistic view for the near-term future of the Denim industry and does not see any possibility of turning around the operations despite having taken several steps as explained above, and hence is substantially scaling down Denim operations further, during year 2019-20. Consequently, the Company has in consultation with the Statutory Auditors, recognised the impairment in the value of plant & machinery as well as stocks and receivables as explained under "Performance Review" under the caption "Exceptional Item" hereinabove.

Outlook

The management and leadership of the company is confident of turning around its financial performance in the medium term, with several strategic initiatives it has taken and under consideration. Post restructuring of the loss-making Denim operations, the Company will concentrate on its core products in Textiles, as well as introduce new products in which the company held positions of strengths earlier. Further, the Company's debt levels will be expected to shrink significantly in medium term and the healthier financial position of the Company will lead to reduced operating and financial costs.

- Installed Timer for Highbay Lighting fixtures in Processing dept.
- Increase the utilisation of Cogeneration plant power Optimise the Maximum demand of the DGVCL in Plant-1.
- Inter Unit shifting of some weaving looms to maximize the utilization of Humidification Power.

(B) The steps taken by the Company for utilizing alternate sources of energy:

As a part of utilising alternate source of energy, at Nadiad we have taken notable Initiatives of purchasing Power through Solar and Wind plant, a renewable and environmental friendly source. We have signed 3 year Agreement with KPI Global Infrastructure Limited for purchase of 2.585 KW Solar power. In FY 2018-19, 4096589 Units were purchased through Solar Energy.

We have also signed Agreement with Trinethra Wind and hydro Power Pvt Ltd for purchase of 2.585 KW wind power to be functional during 2019-20.

(C) The Capital Investment on energy conservation equipment:

- CAPEX of 15 Lacs for Shifting of Weaving Looms to maximise the utilisation of Humidification Power.
- 2 Lacs for CT/PT installation to optimise the Maximum demand of DGVCL in Plant-1.
- Upgradation of Old Caustic Recovery Plant
- Upgradation of Old Singeing m/c
- Upgradation of Old Benninger CBR M/c.
- Agreement has been signed for purchase of WIND power from Trinethra.

(2) TECHNOLOGY ABSORPTION:
Efforts in brief made towards technology absorption:

1. Due to ever increasing demand for Digital Print, New Konica Minolta machine was installed & Under Production.
2. Scalovos Soft Flow machine was installed for Pretreatment & Dyeing of Viscose, Modal & Cotton fabric.
3. After Control Trials, Water consumption in Print soapers were reduced, resulting in Energy Savings, & also Reducing Soaping chemical Consumption.
4. Caustic Soda being hazardous, In CRP (Caustic Recovery Plant) modification was done improving CRP % efficiency. This reduced Effluent load & Saving in fresh caustic consumption.
5. After Trials in Pretreatment (Bleaching), voile process route was changed resulting in Steam & water Saving.
6. For Sustainable Development, Effluent Treatment Plant (ETP) was upgraded fulfilling Environmental Guideline for Waste Water Discharge across the Textile Industry.
7. Installation of inverters at new ring frames & at autoconer 238 to reduce power consumption.
8. Reducing air leakages at autoconer winding by replacing "O"rings/tubes/valves & thereby saving 1500 units/day.
9. Indigo Knit Technology: There is very rare availability of Indigo Knit in market due to its complexity in production.
10. With new technology introduction, Indigo knit production on commercial scale is becoming easy.

Benefits derived as a result of the above efforts:

1. Energy saving.

- (vi) A description of the method and significant assumptions used during the year to estimate the fair value of options including the following information:

Fair value using the Black- Scholes Options Pricing Model

The variables that influence the Fair value of the option and the impact of changes in those underlying variables on the option value are presented below.

Underlying Variable	Change in Variable	Change in Option Value
Exercise Price	Increases	Decreases
Market Price	Increases	Increases
Current Expected dividend yield	Increases	Decreases
Risk-free rate of return	Increases	Increases
Expected option Life*	Increases	Increases
Volatility of the stock	Increases	Increases

1. Fair Value Computation

Fair value of the Options granted by the Company on November 10, 2017 is given below:

	Vest 1 10-Nov-2018	Vest 2 10-Nov-2019	Vest 3 10-Nov-2020	Vest 3 10-Nov-2021
Variables	15%	20%	30%	35%
Stock Price	314.10	314.10	314.10	314.10
Volatility	48.32%	49.23%	52.50%	51.99%
Risk free Rate	6.51%	6.66%	6.80%	6.91%
Exercise Price	322.70	322.70	322.70	322.70
Time to Maturity	3.00	4.00	5.00	6.00
Dividend yield	1.69%	1.69%	1.69%	1.69%
Option Fair Value	108.92	126.71	146.18	156.18
Weighted Avg. Option Fair Value	140.20			

2. Fair Value of Options Granted

There was no options granted during the year 2018-19.

3. Rationale for the variables used

The variables used for calculating the Fair value and their rationale are as follows:

A. Stock price

The fair value of the underlying stock based on the latest available closing Market Price on BSE has been considered for valuing the grant.

B. Volatility

Volatility is a measure of the amount by which a price has fluctuated or is expected to fluctuate during the period. The measure of volatility is used in the Black Scholes option-pricing model is the annualized standard deviation of the continuously compounded rates of return on the stock over a period of time.

The period to be considered for volatility has to be adequate to represent a consistent trend in the price movements. It is also important that movement due to abnormal events get evened out. There is no research that demonstrates conclusively how long the historical period used to estimate expected long-term future volatility should be. However, informal tests and preliminary research tends to confirm that estimates of expected future long-term volatility should be based on historical volatility for a period that approximates the expected life of the options being valued.

Volatility has been calculated based on the historical trading data of the company.

The Fair Value of an option is very sensitive to this variable. Higher the volatility, higher is the Fair Value. The rationale being, more volatile the stock is, the more is its potential to go up (or come down), and the more is the probability to gain from the movement in the price. Accordingly, an option to buy a highly volatile stock is more valuable than the one to buy a less volatile stock, for the probability of gaining is lesser in the latter case.

C. Risk-free interest rate

The risk-free rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the options based on the zero-coupon yield curve for Government Securities.

D. Exercise Price

The Exercise Price ₹ 322.70/- per share (being the closing market price of the equity share of the Company at BSE Limited on 9th November, 2017 previous day of the date of grant of option).

E. Time to Maturity/ Expected Life of the Options

Time to Maturity / Expected Life of the options is the period for which the Company expects the options to be live. The minimum life of a stock option is the minimum period before which the options cannot be exercised, and the maximum life of the option is the maximum period after which the options cannot be exercised.

In case of grant made on November 10, 2017, the earliest date of exercise is November 10, 2018 i.e. one year from the date of grant and those options can be exercised during the period of 4 years from the date of Vesting, i.e. till November 10, 2022. Hence, the minimum option life is 1 year, and the maximum option life is 5 years. The average life is the arithmetic average of the two extremes - the minimum life and the maximum life, i.e. $(1+5)/2 = 3$ years. Time to Maturity has been estimated on a similar basis for the remaining vesting tranches.

F. Expected Dividend Yield

The Expected dividend yield has been calculated using the historical data for the purpose of this valuation.

Particulars	2016-17	2015-16	2014-15	2013-14
Dividend per share	2	3	3	3
Average Fair value per share	302.82	233.98	150.41	106.94
Average Dividend Yield	1%	1%	2%	3%

No dividend was declared in the year 2017-18 and no dividend is proposed for the year 2018-19.

(a) The weighted average values of share price, exercise price, expected volatility, expected option life, expected dividends, the risk free interest rate and any other inputs to the model as mentioned hereinabove.

(b) The method used and assumptions made to incorporate the affects of expected early exercise

As mentioned hereinabove.

(c) How expected volatility was determined, including an explanation of the extent to which expected volatility was based on historical volatility and As mentioned hereinabove.

(d) Whether and how any other features of the option grant were incorporated into the measurement of fair value, such as market condition.

As mentioned hereinabove.

Auditors Certificate regarding Compliance of Conditions of the Corporate Governance

To the Member of Mafatlal Industries Limited

We have examined the compliance of conditions of Corporate Governance by Mafatlal Industries Limited for the Year ended March 31st, 2019 as stipulated in Regulations 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27 and clauses (b) to (i) of sub-regulation (2) of regulation 46 and para C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (collectively referred to as "SEBI Listing Regulations, 2015).

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was carried out in accordance with the Guidance Note on Certification of Corporate Governance, issued by the Institute of Chartered Accountants of India and was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the SEBI Listing Regulations, 2015.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of Mafatlal Industries Limited

Report on the audit of the Standalone financial statements

Opinion

- We have audited the accompanying standalone financial statements of Mafatlal Industries Limited ("the Company"), which comprise the balance sheet as at March 31, 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.
- In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and loss (Comprising of loss and other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for opinion

- We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

- We draw attention to Note 34(c) regarding the net loss of ₹ 9,645.24 Lakhs before exceptional items reported for the year ended March 31, 2019. The Company has undertaken certain steps for scaling down one of its manufacturing operations for which the Company has recognised expenses aggregating ₹ 8,361.80 Lakhs, determined to be in the nature of exceptional items, in anticipation of improving the financial position of the Company. Our opinion is not modified in respect of this matter.

Key audit matter

- Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Appropriateness of impairment assessment of Property, Plant and Equipment (other than considered as Held for Sale)</p> <p>(Refer to Note 3 in the standalone financial statements)</p> <p>The carrying value of the Property, Plant and Equipment is ₹ 13,210.21 Lakhs as at March 31, 2019 which is significant to the balance sheet. The Company has incurred losses before taxes and exceptional items for the financial year 2018-19 which has been considered as trigger for impairment of Property, Plant and Equipment (other than considered as Held for Sale) by the Company.</p> <p>For the purposes of impairment testing, the carrying value of the assets was compared to the recoverable amount (i.e. higher of value in use and fair value less costs to sell). While calculating the value in use, judgement was involved in estimations of the cash flow determining the appropriate discount rate and the terminal growth rate. The Management engaged a valuation expert to determine the fair value of Property, Plant and Equipment.</p> <p>The Management has concluded that no impairment was required as of March 31, 2019.</p>	<p>We have performed audit procedures including the following:</p> <p>Assessed whether the Company's identification of CGUs, which are the smallest identifiable groups of assets that can generate largely independent cash inflows, was consistent with our knowledge of the Company's operations.</p> <p>Understood and evaluated the design of management processes and controls for preparation of impairment assessment working and tested the operating effectiveness of the Company's internal controls surrounding the assessment.</p> <p>We have reviewed the cash flow forecasts of the previous years with the actual results to assess the accuracy of historical forecasts.</p> <p>Engaged with auditors' valuation experts to determine a range of acceptable discount rates and terminal growth rates, with reference to valuations of similar companies and other relevant external data.</p> <p>Performed sensitivity analysis over the future cash flows to assess the potential impact of changes in discount rate and terminal growth rate.</p> <p>Performed test of details to assess the completeness and accuracy of the management's fair valuation report. We also examined the management's comparison of the value in use and fair value to determine recoverable amount.</p> <p>As a result of the above procedures, the Management's assessment of carrying value of Property, Plant and Equipment (other than considered as Held for Sale) was considered to be appropriate.</p>

Key audit matter	How our audit addressed the key audit matter
Assessment of recoverability of deferred tax assets (Refer Note – 35(d)) The Carrying value of Deferred Tax Assets is ₹ 1,227.96 Lakhs as at March 31, 2019. Deferred tax assets are recognised on temporary differences and unabsorbed depreciation as it is considered to be recoverable based on the Company's projected taxable profits in the forecast period. We considered this a key audit matter because significant judgement is required by the Company in determining the recoverability of deferred tax assets arising from Unabsorbed Depreciation as the realisation of tax benefits is dependent on future taxable profits and there are inherent uncertainties involved in forecasting such profits within the recoupment period.	Our audit procedures included the following: Evaluation of the design and testing operating effectiveness of Company's controls relating to the assessment of carrying amount of deferred tax assets, the preparation of the forecast and its related inputs/ assumptions. Obtained Management's approved forecast of taxable profit of next five years and understanding of process followed /assumptions used in such preparation. Assessing the appropriateness of tax rate applied to the taxable profit forecasts; Considering whether the tax losses, on which deferred tax asset is recognised, have been assessed by the tax authorities and are available for utilisation. Based on the above procedures, the Management's assessment of recoverability of deferred tax assets was considered to be reasonable.

Other Information

6. The Company's Board of Directors is responsible for the other information. The other information comprises the Management Discussion and Analysis report and Secretarial Audit report (but does not include the standalone financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the Corporate Information, summarised financial information and Director's report, which is expected to be made available to us after that date. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.
7. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
8. When we read the Corporate Information, summarised financial information and Directors' report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

Responsibilities of management and those charged with governance for the financial statements

9. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
10. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

16. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure B statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 42, 48 and 49 to the financial statements.
 - ii. The Company has long-term contracts as at March 31, 2019 for which there were no material foreseeable losses. The Company did not have any long term derivative contracts as at March 31, 2019.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2019.

Annexure A to Independent Auditors' Report

Referred to in paragraph 17 (f) of the Independent Auditors' Report of even date to the members of Mafatlal Industries Limited on the standalone financial statements for the year ended March 31, 2019

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Mafatlal Industries Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure B to Independent Auditors' Report

Referred to in paragraph 16 of the Independent Auditors' Report of even date to the members of Mafatlal Industries Limited on the standalone financial statements as of and for the year ended March 31, 2019

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of immovable properties, other than self-constructed properties as disclosed in Note 3, 4 and 17 on Property, Plant and Equipment, Investment Property and Assets held for sale respectively, to the standalone financial statements, are held in the name of the Company, except for a leasehold land of gross and net book value of ₹ 0.08 Lakhs, where the Company is in process of getting expired lease renewed.
- ii. The physical verification of inventory excluding stocks with third parties have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), 3(iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, except for dues in respect of interest on employees' state insurance and duty of excise, the Company is generally regular in depositing income tax and is regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, sales tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax and other material statutory dues, as applicable, with the appropriate authorities. Also, Refer Note 48 to the standalone financial statements regarding management's assessment on certain matters relating to provident fund. The extent of the arrears of statutory dues outstanding as at March 31, 2019, for a period of more than six months from the date they became payable are as follows:

Name of the statute	Nature of dues	Amount (₹ in Lakhs)	Period to which the amount relates	Due date	Date of Payment
Employee's State Insurance Act, 1948	Interest on ESIC	40.85	2000-2007 and April 2008 to May 2010	2000 to 2007 and 2008 to 2010	Not paid
Central Excise Act, 1944	Central Excise	3.44	April 1986 to October 1986, May 1995 to December 1995	1986 and 1995	Not paid

- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of goods and service tax which have not been deposited on account of any dispute. The particulars of dues of income tax, sales tax, service tax, duty of customs, duty of excise duty and value added tax as at March 31, 2019 which have not been deposited on account of a dispute, are as follows:

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless otherwise stated)

1. Background

Mafatlal Industries Limited (the "Company") is a public limited Company incorporated under the provisions of the Companies Act, 1956. The shares are listed on the Mumbai Stock Exchange. The Company belongs to the reputed industrial house of Arvind Mafatlal Group in India, established in 1905. The Company is engaged in textile manufacturing and trading, having its manufacturing units at Nadiad and Navsari.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a. Basis of Preparation

i. Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Second Amendments Rules, 2018] (the Rules) and other relevant provisions of the Act.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) that are measured at fair values;
- Defined benefit plans - plan assets measured at fair value, and
- Share-based payments

iii. New amended standards adopted by the Company

Ind AS 115 - Revenue from Contracts with Customers

The Company has adopted Ind AS 115, Revenue from Contracts with Customers, effective April 1, 2018, on a modified retrospective basis, applying the standard to all contracts that are not completed as such date. The adoption of Ind AS 115 did not have any significant financial impact and accordingly, no adjustments are made to the amounts recognised in the financial statements. The adoption has resulted in changes to accounting policies and mandated certain disclosures. Refer Note no (b) below for accounting policies and note no.51(ii) for related disclosures.

iv. Application of new and revised Ind AS's

(a) Ind AS 116 – Leases

On 30 March 2019, the Ministry of Corporate Affairs (MCA) notified Ind AS 116, Leases as part of the Companies (Indian Accounting Standards) Amendment Rules, 2019. Ind AS 116

replaces existing standard on leases i.e. Ind AS 17, Leases with effect from accounting periods beginning on or after 1 April 2019.

Ind AS 116 will affect primarily the accounting by lessees and will result in the recognition of almost all leases on balance sheet. The standard removes the current distinction between operating and finance leases and requires recognition of the right-of-use asset and a lease liability to pay rentals for virtually all lease contracts. An optional exemption exists for short term and low-value leases.

Where a contract meets Ind AS 116's definition of a lease, lease agreements will give rise to the recognition of a non-current asset representing the right to use the leased item, and a lease liability for future lease payables.

In the Statement of Profit and Loss, lessees will have to present interest expense on the lease liability and depreciation on the right-of-use asset. In the cash flow statement, cash payments for the principal portion of the lease liability and its related interest are classified within financing activities. Payments for short-term leases, leases of low-value assets and variable lease payments not included in the measurement of the lease liability are presented within operating activities.

The Company is in the process of evaluating the impact of adoption of Ind AS 116 on its financial statements and will accordingly consider the same from period beginning April 1, 2019.

(b) Other amendments

On March 30, 2019, the Ministry of Corporate Affairs (MCA) notified certain other amendments to Indian Accounting Standards (Ind AS), as below, as part of the Companies (Indian Accounting Standards) Second Amendment Rules, 2019. These other amendments come into force on April 1, 2019.

(i) Appendix C, 'Uncertainty over Income Tax Treatments', to Ind AS 12, 'Income Taxes'

- The appendix explains how to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

(ii) Plan Amendment, Curtailment or Settlement – Amendments to Ind AS 19, 'Employee Benefits' - The amendments to

Ind AS 19 clarify the accounting for defined benefit plan amendments, curtailments and settlements. The Company must:

- calculate the current service cost and net interest for the remainder of the reporting period after a plan amendment, curtailment or settlement by using the updated assumptions from the date of the change;
 - any reduction in a surplus should be recognised immediately in profit or loss either as part of past service cost, or as a gain or loss on settlement. In other words, a reduction in a surplus must be recognised in profit or loss even if that surplus was not previously recognised because of the impact of the asset ceiling; and
 - separately recognise any changes in the asset ceiling through other comprehensive income.
- (iii) Ind AS 12, 'Income Taxes' - The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.
- (iv) Ind AS 23, 'Borrowing Costs' - The amendments clarify that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.

The effective date for adoption of amendments as per Companies (Indian Accounting Standards) Second Amendment Rules, 2019 is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and is in the process of evaluating the impact on account of above amendment on its financial statements and will accordingly consider the same from period beginning April 1, 2019.

b. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") of the Company. The CODM consists of Chairman, CEO & MD, Executive Director who are responsible for allocating resources and assessing performance of the operating segments. The Company operates only in one Business Segment i.e. textile business segment, hence does not have any reportable Segments as per Indian Accounting Standard 108 "Operating Segments".

c. Foreign Currency Transactions

i. Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company

operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the functional and presentation currency of the Company.

ii. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

d. Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue is net of returns, trade allowances, rebates, discounts, value added taxes, goods and services tax and amount collected on behalf of third parties.

The Company recognises revenue when the control in the goods is transferred in favour of the customers and the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company, there is no continuing managerial involvement with the goods and specific criteria have been met for each of the activities described below.

Timing of recognition

Revenue from sale of goods is recognised when the control in the goods are transferred to the buyer as per the terms of the contract. This generally happens upon dispatch of the goods to customers, except for export sales which are recognised when significant risk and rewards are transferred to the buyer as per the terms of contract.

Revenue from services is recognised in the accounting period in which the services are rendered.

Measurement of revenue

Revenue is measured at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and services tax, etc. Discounts given include rebates, price reductions and other incentives given to customers. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases. No element of financing is deemed present as sales are made with a credit term which is consistent with market practice.

e. Income tax

The income tax expense or credit for the period is the tax payable on the taxable income of the current period based on the applicable income tax rates adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Minimum Alternate Tax ('MAT') under the provisions of the Income Tax Act, 1961 is recognised as tax expense in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid will be recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set off against the normal tax liability. Such an asset is reviewed at each Balance Sheet date.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit/(tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit or Loss, except to the extent that it relates to items recognised in Other Comprehensive Income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in equity, respectively.

f. Government grants

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase of Property, Plant and Equipment are included in non-current liabilities

as deferred income and are credited to the Statement of Profit and Loss in proportion to depreciation over the expected lives of the related assets and presented within Other Income.

Government grants relating to income are deferred and recognised in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within Other Income.

Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

g. Leases

As a lessee

Finance lease

Leases of Property, Plant and Equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate expected inflationary cost increases for the lessor.

As a lessor

Finance Lease

Leases of Property, Plant and Equipment where the Company as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalised at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognised in the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period.

Under combined lease agreements, land and building are assessed individually. Lease rental attributable to the operating lease are charged to Statement of Profit and

Loss as lease income whereas lease income attributable to finance lease is recognised as finance lease receivable and recognised on the basis of effective interest rate.

Operating Lease

Lease income from operating leases where the Company is a lessor is recognised as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Balance Sheet based on their nature.

Operating Lease Income

Rental income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

h. Property, plant and equipment:

Freehold land is carried at historical cost. All other items of Property, Plant and Equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within other gains/(losses).

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on the straight-line method to allocate the cost of assets, net of their residual values, over their estimated useful lives.

Depreciation is calculated on a pro-rata basis from the date of acquisition/installation till the date the assets are sold or disposed of:

Asset category	Estimated useful life
Building	30 years
Plant and Machinery	9.5 years
Furniture and Fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Leasehold Improvements	9 years

Land accounted under finance lease is amortised on a straight-line basis over the period of lease.

The carrying amount of an asset is written down immediately to its recoverable amount if the carrying amount of the asset is greater than its estimated recoverable amount.

The estimated useful life and depreciation method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Individual assets acquired for less than ₹ 5,000/- are entirely depreciated in the year of acquisition.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at April 01, 2016 measured under IGAAP as the deemed cost of the Property, Plant and Equipment.

i. Intangible assets

Computer software includes enterprise resource planning project and other cost relating to such software which provides significant future economic benefits. These costs comprise of license fees and cost of system integration services.

Computer software cost is amortised over a period of 3 years using straight-line method.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within other gains/(losses).

The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Research and development:

Research expenditure and development expenditure that do not meet the capitalization criteria as mentioned above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of Intangible Assets recognised as at April 01, 2016 measured under IGAAP as the deemed cost of Intangible Assets.

j. Investment properties:

Land and building that is held for long-term rental yields or for capital appreciation or both, and that is not in use by the Company, is classified as Investment Property. Land held for a currently undetermined future use is also classified as an Investment Property. Investment property is measured initially at its acquisition cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an Investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives which is determined based on technical evaluation performed by the management's expert.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its Investment Property recognised as at April 01, 2016 measured under IGAAP as the deemed cost of Investment Property.

k. Impairment of assets:

The carrying amount of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal / external factors. An impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances and to the extent that carrying amount of the assets does not exceed the carrying amount that will be determined if no impairment loss had previously been recognised.

l. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term (3 months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

m. Trade receivables

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method, less provision for impairment.

n. Trade payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their

fair value and subsequently measured at amortised cost using the EIR method.

o. Inventories

Raw materials, packing materials, purchased finished goods, work-in-progress, manufactured finished goods, fuel, stores and spares other than specific spares for machinery are valued at cost or net realisable value whichever is lower.

Items of inventory are valued at cost or net realizable value, whichever is lower after providing for obsolescence and other losses, where considered necessary. Cost is determined on the following basis:

- Stores, spares, raw materials and trading goods - Weighted average cost
- Process stock and finished goods - Material cost plus appropriate value of overheads
- Others (land) - At cost on conversion to stock-in-trade plus cost of improvement

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition.

Due allowances are made for slow moving and obsolete inventories based on estimates made by the Company. Items such as spare parts, stand-by equipment and servicing equipment which is not plant and machinery gets classified as inventory.

p. Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance

sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

q. Investments and other financial assets

i. Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the business model of the entity for managing financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election (on an instrument-by-instrument basis) at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

ii. Initial recognition and measurement:

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

iii. Subsequent measurement

After initial recognition, financial assets are measured at:

- Fair value {through Other Comprehensive Income (FVOCI) or through profit or loss (FVPL)} or,
- Amortised cost

Debt instruments

Subsequent measurement of debt instruments depends on the business model of the Company for managing the asset and the cash flow characteristics of the asset. There are 3 measurement categories into which the Company classifies its debt instruments:

Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the EIR method less impairment, if any, the amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

Measured at fair value through Other Comprehensive Income (OCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through Other Comprehensive Income. Fair value movements are recognised in the OCI. Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On de-recognition, cumulative gain /(loss) previously recognised in OCI is reclassified from the equity to other income in the Statement of Profit and Loss.

Measured at fair value through profit or loss:

A financial asset not classified as either amortised cost or FVOCI, is classified as FVPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as other income in the Statement of Profit and Loss.

Equity instruments:

The Company subsequently measures all investments in equity instruments other than subsidiary company, associate company and Joint Venture Company at fair value. The Management of the Company has elected to present fair value gains and losses on such equity investments in either Other Comprehensive Income or profit & loss. There is no subsequent reclassification of fair value gains and losses to the Statement of profit and loss where FVOCI option is chosen. Dividends from such investments continue to be recognised in the Statement of Profit and Loss as Other income when the right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Investments in subsidiary company, associate company and Joint Venture Company:

Investments in subsidiary company is carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal

of investments in subsidiary companies, associate company and Joint Venture Company, the difference between net disposal proceeds and the carrying amounts are recognised in the Statement of Profit and Loss.

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Fair Value hierarchy

The judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements in the note 36. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

iv. Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments (Eg. trade receivables, other contractual rights to receive cash or other financial asset). The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Note 38 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

v. Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

vi. Income recognition:

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

r. Financial liabilities and equity instruments

i. Classification as debt or equity

Debt and equity instruments issued by the entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

ii. Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

iii. **Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iv. **Derecognition**

A financial liability is de-recognised when the obligation specified in the contract is discharged, cancelled or expires.

s. **Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

t. **Derivative instruments**

The Company holds derivative financial instruments such as foreign exchange forward and commodity futures to mitigate the risk of changes in exchange rates on foreign currency exposures and changes in prices of raw materials. The counter party for these contracts is generally a bank.

Derivative financial assets or liabilities are not designated as hedges. Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments.

Derivatives not designated as hedges are recognised initially at fair value and attributable transaction costs are recognised in net profit in the Statement of Profit and Loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in Other income. Assets / liabilities in this category are presented as current assets / current liabilities if they are expected to be realised within 12 months after the Balance Sheet date.

u. **Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled

or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as Other income / (expense).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

v. **Borrowing costs**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

w. **Provisions and contingent liabilities**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each reporting period and reflect the best current estimate.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

x. **Employee benefits**

i. ***Short-term employee benefits***

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in

which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. **Other Long-term employee benefits**

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. **Post-employment obligations**

Defined Benefits plan

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Balance Sheet is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is paid to trusts administered by the Company for certain employees, which in turn invests in eligible securities to meet the liability as and when it accrues for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss. For other employees, the Company makes contribution for certain employees whereas for some other employees the Company makes contribution to a trust maintained by Life Insurance Corporation ('LIC') of India.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Provident fund contributions for certain employees are made to a trust administered by the Company in India. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year and any shortfall in the fund balance maintained by the Trust set up by the Company is additionally provided. Actuarial losses and gains are recognised in other comprehensive income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

Defined contribution plan

The Company contributes towards Employees State Insurance Scheme, Family Pension Fund, Superannuation Fund and Provident Fund for certain employees, which are defined contribution schemes.

The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

iv. **Share based payments**

The fair value of options granted under the Employee Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

y. Earnings per share

i. Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

z. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

z1. Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

z2. Exceptional Items

The term 'Exceptional items' is neither defined in Ind AS Schedule III nor in Ind AS. However, Ind AS 1 has reference to such items in paras 85, 86, 97 and 98.

Para 85 states that additional line items, headings and subtotals in the statement of profit and loss shall be presented, when such presentation is relevant to an understanding of the entity's financial performance.

Further, para 86 states that disclosing the components of financial performance assists users in understanding the financial performance achieved and in making projections of future financial performance. An entity considers factors including materiality and the nature and function of the items of income and expense.

Para 97 states that when items of income or expense are material, an entity shall disclose their nature and amount separately.

Para 98 gives circumstances that would give rise to the separate disclosure of items of income and expense and includes:

- Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write-downs;
- restructurings of the activities of an entity and reversals of any provisions for the costs of restructuring;
- disposals of items of property, plant and equipment;
- disposals of investments;
- discontinued operations;
- litigation settlements; and
- other reversals of provisions.

Accordingly the Company has disclosed loss arising out of impairment of inventory, trade receivables and property, plant and equipment as loss arising out of exceptional items [Refer Note No. 34('c)].

aa. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

2.1 Critical estimates and judgements

Preparation of the Financial Statements requires use of accounting estimates which, by definition, will seldom equal the actual results. This Note provides an overview of the areas that involved a higher degree of judgements or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

- Estimation of useful life of Property, plant and equipment: Note 1 (h)
- Estimation of defined benefit obligation: Note 40
- Estimation of fair value of level 3 financial instruments - Note 36
- Contingent Liabilities- Note 42

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

(iii) Leasing arrangements

(a) Operating Leases

The Company has given certain investment properties on operating lease. These lease arrangements range for a period between eleven to sixty months and include both cancellable and non-cancellable leases. Most of the leases are renewable for further period on mutually agreeable terms. With respect to non-cancellable operating lease, the future minimum lease payment as at Balance Sheet date is as under (Refer Note 43):

Particulars	As at March 31, 2019	As at March 31, 2018
Within one year	103.51	181.44
Later than one year but not later than five years	45.11	14.48
Total	148.62	195.92

(b) Finance leases

Investment property includes a land portion taken on lease by the Company for a period ranging from 80 to 99 years with an option to extend the lease by another 99 years on expiry of lease. However, the Company has no specific obligation towards renewal of land. The Company has considered that such a lease of land transfers substantially all of the risks and rewards incidental to ownership of land, and has thus accounted for the same as finance lease.

(iv) Fair value of investment properties

Particulars	As at March 31, 2019	As at March 31, 2018
Investment properties	12,831.73	12,795.40

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless otherwise stated)

Estimation of fair value

The fair valuation is based on current prices in the active market for similar properties. The main inputs used are quantum, area, location, demand, rental growth rates, expected vacancy rates, terminal yields and discount rates. All resulting fair value estimates for investment properties are included in level 3. The Company obtains independent valuations for its investment properties annually.

- (v) The Company is in the process of getting expired leases renewed, in respect of Mazgaon and Lower Parel Land.

Transferred receivables

The carrying amounts of the trade receivables include receivables which are subject to a discounting arrangement. Under this arrangement, the Company has transferred the relevant receivables to the factor in exchange for cash and is prevented from selling or pledging the receivables. However, the Company has retained late payment and credit risk. The Company therefore continues to recognise the transferred assets in their entirety in its balance sheet. The amount repayable under the discounting is presented as secured borrowing.

Note 34 (c) - Exceptional items

The financial performance for the current and previous year reflects a Loss before exceptional items and tax. In order to curtail losses, the Company has undertaken certain strategic initiatives. As part of these initiatives, it has decided to substantially scale down its denim operations. Consequently, the Company, after reviewing the utilisation of Property, Plant and Equipment, employee strength and carrying value of certain current/non-current assets relating to denim operations, has decided to take the undernoted write-downs / provisions as exceptional items:-

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
Property, Plant and Equipment [Net of All Associated cost]* (Refer Note 3)	3,925.43	-

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the Accounting Standard as follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the other unquoted equity investments is determined based on the report of the valuer
- the fair value of forward foreign exchange contracts is determined using foreign exchange rates at the balance sheet date

(iii) Valuation processes

The finance department of the Company obtains assistance of independent and competent third party valuers to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This expert reports to the financial risk management team and Chief Financial Officer (CFO). Discussion of valuation processes and results are held between the CFO and the valuation team at least once every three months, in line with the Company's quarterly reporting periods.

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2019
(All amounts in ₹ Lakhs, unless otherwise stated)

The main level 3 inputs used by the Company are derived and evaluated as follows:

- Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.
- Risk adjustments specific to the counter parties (including assumptions about credit default rates) are derived from credit risk grading determined by the Company's internal credit risk management committee.

Changes in level 2 and 3 fair values are analysed at the end of each reporting period during the quarterly valuation discussion between the financial risk management team, CFO and the valuation experts. As part of this discussion the team presents a report that explains the reason for the fair value movements.

Note 37 - Share Based Payments
(a) Employee option plan

The Mafatlal Employee Stock Option Scheme 2017 (ESOS) of Mafatlal Industries Limited was approved by the Board of Directors of the Company at their meeting held on May 5, 2017 and finalised on August 10, 2017. At the Annual General Meeting held on August 02, 2017, the shareholders had approved the creation of employee stock option pool of 695,000 equity shares of face value of ₹ 10/- each fully paid up on such terms and such manner as the Board may decide in accordance with the provisions of applicable law and proposed Mafatlal Employee Stock Option Scheme 2017 (ESOS). The Company intends to implement ESOS with a view to attract and retain key talents working with the Company by way of rewarding their performance and motivate them to contribute to the overall corporate growth and profitability. The Nomination & Remuneration Committee(NRC) will administer the ESOS. On November 10, 2017 the NRC has granted 138,000 options with a progressive vesting to certain senior management employees and the vesting of options will be @15% on 1st Anniversary, 20% on 2nd Anniversary, 30% on 3rd Anniversary, 35% on 4th Anniversary, of grant date.

Once vested, the options remain exercisable for a period of four years.

Options are granted under the plan for no consideration and carry no dividend or voting rights. When exercisable, each option is convertible into one equity share. The exercise price of the options is fair market price of the share as on date of grant of options.

Set out below is a summary of options granted under the plan:

Particulars	Average exercise price per share option (₹)	Number of options

(i) Fair Value of options granted

The weighted average fair value at grant date of options granted during the year ended March 31, 2019 was ₹ 140.20 per option (March 31, 2018 - ₹ 145.78). The fair value at grant date is determined using the Black and Scholes Model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of option.

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless otherwise stated)

The model inputs for options granted during the year ended March 31, 2019 included:-

- (a) options are granted for no consideration and vest upon completion of service for a period of 1-4 years. Vested options are exercisable for a period of four years after vesting.
- (b) exercise price: ₹ 322.70
- (c) grant date: November 10, 2017
- (d) expiry date: November 10, 2022 - November 10, 2025
- (e) share price at grant date: ₹ 314.10
- (f) expected price volatility of the Company's shares: 48.32%-51.99%
- (g) expected dividend yield: 1.69%
- (h) risk free interest rate: 6.51% - 6.91%

The expected price volatility is based on the historic volatility (based on the remaining life of the options) adjusted for any expected changes to future volatility due to publicly available information.

(b) Expenses arising from share based payment transactions

Total expenses arising from share based payment transactions recognised in profit and loss as part of employee benefits expense were as follows:-

Note 38 - Financial risk management

The Company's business activities exposes it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management and key management personnel have the ultimate responsibility for managing these risks. The Company has a mechanism to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's senior management and key management personnel are supported by the finance team and respective business divisions that provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The activities are designed to protect the Company's financial results and position from financial risks; and maintain market risks within acceptable parameters, while optimising returns.

(A) Management of liquidity risk

The principal sources of liquidity of the Company are cash and cash equivalents, borrowings and the cash flow that is generated from operations. The Company believes that current cash and cash equivalents, tied up borrowing lines and cash flow that is generated from operations is sufficient to meet requirements. The Company is cognizant of reputational risk that are associated with the liquidity risk and such risk is factored into the overall business strategy. The following table shows the maturity analysis of financial liabilities of the Company based on contractually agreed undiscounted cash flows as at the Balance Sheet date:

(B) Management of market risk

The size and operations of the Company result in it being exposed to the following market risks that arise from its use of financial instruments:

- i) price risk
- ii) interest rate risk
- iii) Commodity risk
- iv) foreign exchange risk

The above risks may affect income and expenses, or the value of its financial instruments of the Company. The objective of the Management of the Company for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company's exposure to, and the Management of, these risks is explained below:

Potential impact of risk	Management policy	Sensitivity to risk
i) Price risk The Company is mainly exposed to the price risk due to its investments in equity instruments. The price risk arises due to uncertainties about the future market values of these investments. Equity price risk is related to the change in market reference price of the investments in equity securities. In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities. The fair value of quoted equity instruments classified as fair value through Other Comprehensive Income as at March 31, 2019 is ₹ 37,315.73 Lakhs (March 31, 2018: ₹ 49,943.85 Lakhs).	In order to manage its price risk arising from investments in equity instruments, the Company maintains its portfolio in accordance with the framework set by the Risk Management policies. Any new investment or divestment must be approved by the Board of Directors, Chief Financial Officer and Risk Management Committee.	As an estimation of the approximate impact of price risk, with respect to investments in equity instruments, the Company has calculated the impact as follows: For equity instruments, a 5% increase in Sensex prices would have led to an approximately additional ₹ 1,929.60 Lakhs gain (March 31, 2018- ₹ 2,497.18 Lakhs). A 5% decrease in Sensex prices would have led to an equal but opposite effect.
ii) Interest rate risk		
a) Financial liabilities The Company is mainly exposed to interest rate risk due to its variable interest rate borrowings. The interest rate risk arises due to uncertainties about the future market interest rate of these borrowings. As at March 31, 2019, the exposure to interest rate risk due to variable interest rate borrowings amounted to ₹ 20,697.16 Lakhs (March 31, 2018: ₹ 23,359.76 Lakhs)	The Company monitors fluctuations in interest rate continuously and has laid policies and guidelines including to minimise impact of interest rate risk.	As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Company has calculated the impact of a 25 bps change in interest rates. A 25 bps increase in interest rates would have led to approximately an additional loss ₹ 53.08 Lakhs (March 31, 2018: ₹ 55.91 Lakhs additional loss). A 25 bps decrease in interest rates would have led to an equal but opposite effect.

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless otherwise stated)

Potential impact of risk	Management policy	Sensitivity to risk
iii) Commodity risk		
Commodities form a major part of the raw materials required for Company's products portfolio and hence commodity price risk is one of the important market risk for the Company. The commodities are priced using pricing benchmarks and commodity derivatives are priced using exchange-traded pricing benchmarks.	<p>The Company has a robust framework and governance mechanism in place to ensure that the organisation is adequately protected from the market volatility in terms of price and availability.</p> <p>The Company has managed the commodity risk with appropriate hedging activities in accordance with policies of the Company. The aim of the Company's approach to manage commodity risk is to leave the Company with no material residual risk. The Company uses future contracts to hedge against its commodity exposures relating to cotton which is its most widely used raw material.</p>	<p>As an estimation of the approximate impact of the residual risk, with respect to commodity futures, the Company has calculated the impact of a 5% change in futures rates.</p> <p>A 5% strengthening of the respective futures would result additional loss / gain of NIL (March 31, 2018 - NIL) impact on profit and equity. This analysis assumes that all other variables remain constant.</p> <p>A 5% weakening of the futures would have led to an equal but opposite effect.</p>
iv) Foreign exchange risk		
The Company has international operations and is exposed to foreign exchange risk arising from foreign currency transactions. Foreign exchange risk arises from future commercial transactions and recognised Financial assets and liabilities denominated in a currency that is not the functional currency (INR) of the Company. The risk also includes highly probable foreign currency cash flows.	<p>The Company is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to USD, EURO, GBP and AED.</p> <p>The aim of the Company's approach is to manage the currency risk and to leave the Company with no material residual risk. This aim has been achieved in all years presented.</p> <p>The Company manages currency exposures within prescribed limits, through use of forward exchange contracts. Foreign exchange transactions are fully covered with strict limits placed on the amount of uncovered exposure, if any, at any point in time.</p>	<p>As an estimation of the approximate impact of the foreign exchange rate risk, with respect to Financial Statements, the Company has calculated the following:</p> <p>For derivative and non-derivative financial instruments, a 5% increase in the spot price as on the reporting date would result in increase in profit and equity as of ₹ 74.91 Lakhs (March 31, 2018: gain of ₹ 162.39 Lakhs). A 5% decrease would have led to an equal but opposite effect.</p>

(C) Management of credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counter party fails to meet its contractual obligations.

Trade receivables

Concentration of credit risk with respect to trade receivables are limited, due to the customer base being large, diverse and across sectors and countries. All trade receivables are reviewed and assessed for default on a quarterly basis.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counter party,
- iii) Financial or economic conditions that are expected to cause a significant change to the counter party's ability to meet its obligations,
- iv) Significant increase in credit risk on other financial instruments of the same counter party,
- v) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

In furtherance to above, the Company has assessed the impact of the simplified approach permitted by Ind AS 109 financial instruments, which requires expected lifetime losses to be recognised in respect of trade receivables. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the micro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expect the historical trend of minimal credit losses to continued.

Other financial assets

The Company maintains exposure in cash and cash equivalents, term deposits with banks. The Company has a diversified portfolio of investment with various number of counter parties which have secure credit ratings, hence the risk is reduced. Individual risk limits are set for each counter party based on financial position, credit rating and past experience. Credit limits and concentration of exposures are actively monitored by the treasury department of the Company.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised as income in the Statement of Profit and Loss.

Note 39 - Capital Management
(a) Risk management

The Company's objectives when managing capital are to safeguard Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the balance sheet) less cash and cash equivalents and other bank balances. Total capital is calculated as 'equity' as shown in the balance sheet.

Description	As at March 31, 2019	As at March 31, 2018
Total Borrowings	18,777.41	19,801.64
Total Equity	50,698.98	79,840.46

(i) Compensated Absences

The employees of the Company are entitled to compensated absences as per the policy of the Company. The entire amount of the provision of compensated absences is presented as current, since the Company does not have an unconditional right to defer settlement for the obligation. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months.

Particulars	As at March 31, 2019	As at March 31, 2018
Current leave obligations not expected to be settled within the next 12 months	421.65	471.58

(ii) Post employment obligations

(a) Defined Contribution Plans:

The Company contributes towards Employees State Insurance Scheme, Family Pension Fund, Superannuation Fund and Provident Fund for certain employees. The contributions are normally based on a certain proportion of the employee's salary. During the year, the Company has recognised contribution to these funds aggregating to ₹ 620.87 Lakhs (March 31, 2018- ₹ 755.84 Lakhs) (Refer Note 31).

(b) Defined Benefit Plans:

Gratuity

The Company provides for gratuity for employees as per the Company policy. The amount of gratuity payable on retirement/ termination is payable to the employees based on last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Company has established Fund to which the Company makes contribution for certain employees whereas for some other employees the Company makes contribution to a trust maintained by Life Insurance Corporation ('LIC') of India. The contributions are made to a gratuity based upon actuarial valuation done at the year end of every financial year using "Projected Unit Credit" method. The charge on account of provision for gratuity has been included in 'Employee Benefits Expense' in the Statement of Profit and Loss except remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability which are recognised in other comprehensive income.

Provident fund

In respect of certain employees, provident fund contributions are made to a separately administered trust. Such contribution to the provident fund are charged to the Statement of Profit and Loss. In case of any liability arising due to shortfall between the return from its investments and the guaranteed specified interest rate, the same is provided for by the Company. The actuary has provided an actuarial valuation and the interest shortfall liability, if any, has been provided in the books of accounts after considering the assets available with the provident fund trust.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to increase and decrease in the weighted principal assumptions by 0.50% is as below:

Particulars	Impact on defined benefit obligation			
	Increase in assumptions		Decrease in assumptions	
	March 31, 2019	March 31, 2018	March 31, 2019	March 31, 2018
Discount Rate / Return on plan assets				
Gratuity	(80.78)	(101.76)	85.76	108.51
Rate of salary increase				
Gratuity	88.37	112.01	(83.87)	(105.80)
Rate of employee turnover				
Gratuity	21.70	33.42	(22.82)	(35.32)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(iii) The major categories of plans assets are as follows:

The plan asset for the funded gratuity plan is administered by Life Insurance Corporation of India ('LIC') and Trust managed by the Fund as per the investment pattern stipulated for Pension and Group Schemes fund by Insurance Regulatory and Development Authority regulations i.e. 100% of plan assets are invested in insurer managed fund. Quoted price of the same is not available in active market.

(iv) Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Asset volatility : The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. 100% of the plan asset investments is in insurer managed funds. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.

Interest-Rate Risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

(v) Defined Benefit Liability and Employer Contributions

Expected contributions to post-employment benefit plans for the year ending March 31, 2020 are ₹ 266.29 Lakhs.

The weighted average duration of the defined benefit obligation is 7-11 years (2018 - 7-11 years). The expected maturity analysis of undiscounted gratuity is as follows:

Note:- 48

The Company is in the process of evaluating the impact of the recent Supreme Court Judgment in case of "Vivekananda Vidyamandir And Others v/s The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-1/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. In the assessment of the management which is supported by legal advice, the aforesaid matter is not likely to have a significant impact and accordingly, no provision has been made in these Financial Statements.

Note 49

- (i) As legally advised, the Company has not recognised as income recovery of rent and other charges of ₹ 83.61 Lakhs upto March 31, 2019 (₹ 83.61 Lakhs upto March 31, 2018) pending final resolution of legal dispute with certain ex-tenants of a property in South Mumbai. At present, the legal dispute is pending with the Hon'ble Bombay High Court. A sum of ₹ 577.89 Lakhs (Net) was withdrawn by the Company in accordance with the Orders passed by the Hon'ble High Court of Bombay on the Civil Revision Applications filed by the ex-tenants and the said amount of ₹ 577.89 Lakhs has been included in other current liabilities.
- (ii) In an earlier year, the Company had sold part of its leasehold land at its Mazgaon unit. During the current financial year, the Company has surrendered the remaining leasehold land (reserved portion admeasuring about 27,287.82 square meters) to Municipal Corporation of Greater Mumbai for the purpose of extension of V.J.B. Udyan. The Company is also required to recommence the spinning unit which can accommodate 10,000 spindles. By virtue of the agreement, the developer will construct a structure and hand it over to the Company.
- (iii) Pursuant to the demerger of the Real Estate and Investment Business to Sulakshana Securities Limited (SSL) in 2002, the shareholders of the Company are to be issued one equity share of ₹ 10/- each, fully paid-up, in SSL for every 500 shares of ₹ 100/- each, fully paid-up, held in the Company as consideration for the demerger, aggregating to ₹ 1.00 lakh. As the shareholders of the Company would be entitled to receive only fractional shares of SSL, the rehabilitation scheme sanctioned by BIFR envisages that these shares would be acquired by Navin Fluorine International Limited (NFIL) and the shareholders of the Company would receive proportionate payment in consideration thereof. The Company has received the said amount of ₹ 1.00 lakh from NFIL on behalf of the shareholders, which is pending disbursement upon completion of formalities.
- (iv) During the quarter ended 30th September 2018, the Hon'ble Bombay High Court passed an order partially allowing the Writ Petition No.2982 of 2016 filed by the Company. The demand notice of ₹ 454.35 crores issued by the Collector, Mumbai City in respect of part of the Mazagaon land (developable land) has been set aside in line with earlier decision of the Hon'ble Bombay High Court on the similar issue in other matters. The said earlier decision of the Hon'ble Bombay High Court on the same issue has been challenged by the State Government in the Hon'ble Supreme Court by filing Special Leave Petition (SLP) in which the

(All amounts in ₹ Lakhs, unless otherwise stated)

Company has also been made one of the respondents. In the SLP filed by the Company against the aforesaid Order, in so far as it relates to rejection of the claim of the Company for non-cash compensation benefit (TDR) against surrender of a part of land at Mazagaon (reserved land) to Municipal Corporation of Greater Mumbai (MCGM) has been dismissed by the Hon'ble Supreme Court, with liberty to the Company to explore the alternative remedies available to it in accordance with law. As legally advised, against the aforesaid Order of the Hon'ble Bombay High Court denying TDR benefits to the Company against surrender of Reserved Land, the Company has filed a review petition in the Hon'ble Bombay High Court.

INDEPENDENT AUDITORS' REPORT

To the Members of Mafatlal Industries Limited Report on the Audit of Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Mafatlal Industries Limited ("hereinafter referred to as the Company") and its subsidiary company (Holding Company and its subsidiary together referred to as "the Group") [refer Note 2(b) to the attached consolidated financial statements], comprising of the consolidated Balance Sheet as at March 31, 2019, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the consolidated financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company and its subsidiary as at March 31, 2019, of consolidated total comprehensive income (comprising of Loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis of Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its subsidiary in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India, of the consolidated state of affairs of the Company and its subsidiary as at March 31, 2019, of consolidated total comprehensive income (comprising of Loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the consolidated financial statements"). We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 17 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

4. We draw attention to Note 34(c) regarding the net loss of ₹ 9,645.24 Lakhs before exceptional items reported for the year ended March 31, 2019. The Company has undertaken certain steps for scaling down one of its manufacturing operations for which the Company has recognised expenses aggregating ₹ 8,361.81 Lakhs, determined to be in the nature of exceptional items, in anticipation of improving the financial position of the Company. Our opinion is not modified in respect of this matter.

Key audit matter

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Appropriateness of impairment assessment of Property, Plant and Equipment (other than considered as Held for Sale) (Refer to Note 3 in the consolidated financial statements) The carrying value of the Property, Plant and Equipment is ₹ 13,210.21 Lakhs as at March 31, 2019, which is significant to the balance sheet. The Company has incurred losses before taxes and exceptional items for the financial year 2018-19 which has been considered as trigger for impairment of Property, Plant and Equipment (other than considered as Held for Sale) by the Company. For the purposes of impairment testing, the carrying value of the assets were compared to the recoverable amount (i.e. higher of value in use and fair value less costs to sell). While calculating the value in use, judgement was involved in estimations of the cash flow determining the appropriate discount rate and the terminal growth rate. The Management engaged a valuation expert to determine the fair value of Property, Plant and Equipment. The Management has concluded that no impairment was required as of March 31, 2019.	We have performed audit procedures including the following: Assessed whether the Company's identification of CGUs, which are the smallest identifiable groups of assets that can generate largely independent cash inflows, was consistent with our knowledge of the Company's operations. Understood and evaluated the design of management processes and controls for preparation of impairment assessment working and tested the operating effectiveness of the Company's internal controls surrounding the assessment. We have reviewed the cash flow forecasts of the previous years with the actual results to assess the accuracy of historical forecasts. Engaged with auditors' valuation experts to determine a range of acceptable discount rates and terminal growth rates, with reference to valuations of similar companies and other relevant external data. Performed sensitivity analysis over the future cash flows to assess the potential impact of changes in discount rate and terminal growth rate. Performed test of details to assess the completeness and accuracy of the management's fair valuation report. We also examined the management's comparison of the value in use and fair value to determine recoverable amount. As a result of the above procedures, the Management's assessment of carrying value of Property, Plant and Equipment (other than considered as Held for Sale) was considered to be appropriate.

Key audit matter	How our audit addressed the key audit matter
Assessment of recoverability of deferred tax assets (Refer Note -35(d)) <p>The carrying value of Deferred Tax Assets is ₹ 1,227.96 Lakhs as at March 31, 2019. Deferred tax assets are recognised on temporary differences and past tax losses/unabsorbed depreciation as it is considered to be recoverable based on the Company's projected taxable profits in the forecast period.</p> <p>We considered this a key audit matter because significant judgement is required by the Company in determining the recoverability of deferred tax assets arising from Unabsorbed Depreciation as the realisation of tax benefits is dependent on future taxable profits and there are inherent uncertainties involved in forecasting such profits within the recoupment period.</p>	<p>Our audit procedures included the following:</p> <p>Evaluation of the design and testing operating effectiveness of Company's controls relating to the assessment of carrying amount of deferred tax assets, the preparation of the forecast and its related inputs/ assumptions.</p> <p>Obtained Management's approved forecast of taxable profit of next five years and understanding of process followed/assumptions used in such preparation.</p> <p>Assessing the appropriateness of tax rate applied to the taxable profit forecasts;</p> <p>Considering whether the tax losses, on which deferred tax asset is recognised, have been assessed by the tax authorities and are available for utilisation.</p> <p>Based on the above procedures, the Management's assessment of recoverability of deferred tax assets was considered to be reasonable.</p>

Other Information

6. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the Management Discussion and Analysis report and Secretarial Audit report (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the Corporate Information, summarised financial information and Director's report, which is expected to be made available to us after that date. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance, conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.
7. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
8. When we read the Corporate Information, summarised financial information and Directors' report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

9. The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Company including its subsidiary in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Company and of its subsidiary are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.
10. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Company and of its subsidiary are responsible for assessing the ability of the Company and of its subsidiary to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
11. The respective Board of Directors of the companies included in the Company and of its subsidiary are responsible for overseeing the financial reporting process of the Company and of its subsidiary.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company and its subsidiary to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its subsidiary to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiary to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
14. We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

17. We did not audit the financial statements of one subsidiary – Mafatlal Services Limited whose financial statements reflect total assets of ₹ 47.91 Lakhs and net assets of ₹ 39.13 Lakhs as at March 31, 2019, total revenue of ₹ 30.79 Lakhs and total comprehensive income (comprising of profit and other comprehensive income) of Nil and net cash flows amounting to ₹ 1.24 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of the subsidiary is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

18. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - In our opinion, proper books of account as required by law maintained by the Holding Company and its subsidiary incorporated in India including relevant records relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and Consolidated Cash Flow Statement and the dealt with by this Report, are in agreement with the relevant books of account maintained by the Company and its subsidiary company incorporated in India including relevant records relating to the preparation of the consolidated financial statements.
 - In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - On the basis of the written representations received from the directors of the Company as on March 31, 2019 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Company and its subsidiary company incorporated in India is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and the operating effectiveness of such controls, refer to our separate report in Annexure A.
 - With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The consolidated financial statements disclose the impact, if any, of pending litigations as at March 31, 2019 on the consolidated financial position of the Company and its subsidiary – Refer Note 42, 50 and 51 to the consolidated financial statements.
 - The Company and its subsidiary company had long-term contracts as at March 31, 2019 for which there were no material foreseeable losses. The Company and its subsidiary did not have any long-term derivative contracts as at March 31, 2019.
 - There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company and its subsidiary company incorporated in India during the year ended March 31, 2019 ; and
 - The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2019.

Annexure A to Independent Auditors' Report

Referred to in paragraph 18(f) of the Independent Auditors' Report of even date to the members of Mafatlal Industries Limited on the consolidated financial statements for the year ended March 31, 2019

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial controls with reference to financial statements of Mafatlal Industries Limited (hereinafter referred to as "the Holding Company") and its subsidiary company, which are companies incorporated in India, as of that date. Reporting under Clause (i) of sub-section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial statements is not applicable to the subsidiary company incorporated in India, pursuant to MCA notification GSR 583(E) dated 13th June, 2017.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the "Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company has in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

1. Background

Mafatlal Industries Limited (the "Company" or "MIL") is a public limited Company incorporated under the provisions of the Companies Act, 1956. The shares are listed on the Mumbai Stock Exchange. The Company belongs to the reputed industrial house of Arvind Mafatlal Group in India, established in 1905. The Company is engaged in textile manufacturing and trading, having its manufacturing units at Nadiad and Navsari. The Company and its subsidiary, Mafatlal Services Limited ("MSL"), are together referred to as the Group.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a. Basis of Preparation

i. Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Second Amendments Rules, 2018] (the Rules) and other relevant provisions of the Act.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) that are measured at fair values;
- Defined benefit plans - plan assets measured at fair value, and
- Share-based payments

iii. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Second Amendment Rules, 2018 has notified the following new and amendments to Ind ASs.

The company is currently evaluating the impact of the standard and amendment on the financial position and results of operation.

iv. New amended standards adopted by the Company

Ind AS 115 - Revenue from Contracts with Customers

The Company has adopted Ind AS 115, Revenue from Contracts with Customers, effective April 1, 2018, on a modified retrospective basis, applying the standard to all contracts that are not completed as such date. The adoption of Ind AS 115 did not have any significant financial impact and accordingly, no adjustments are made to the amounts recognised in the financial statements. The adoption has resulted in changes to accounting policies and mandated certain

(All amounts in ₹ Lakhs, unless stated otherwise)

disclosures. Refer Note no (b) below for accounting policies and note no.51(ii) for related disclosures.

v. Application of new and revised Ind AS's

(a) Ind AS 116 – Leases

On 30 March 2019, the Ministry of Corporate Affairs (MCA) notified Ind AS 116, Leases as part of the Companies (Indian Accounting Standards) Amendment Rules, 2019. Ind AS 116 replaces existing standard on leases i.e. Ind AS 17, Leases with effect from accounting periods beginning on or after 1 April 2019.

Ind AS 116 will affect primarily the accounting by lessees and will result in the recognition of almost all leases on balance sheet. The standard removes the current distinction between operating and finance leases and requires recognition of the right-of-use asset and a lease liability to pay rentals for virtually all lease contracts. An optional exemption exists for short term and low-value leases.

Where a contract meets Ind AS 116's definition of a lease, lease agreements will give rise to the recognition of a non-current asset representing the right to use the leased item, and a lease liability for future lease payables.

In the Statement of Profit and Loss, lessees will have to present interest expense on the lease liability and depreciation on the right-of-use asset. In the cash flow statement, cash payments for the principal portion of the lease liability and its related interest are classified within financing activities. Payments for short-term leases, leases of low-value assets and variable lease payments not included in the measurement of the lease liability are presented within operating activities.

The Company is in the process of evaluating the impact of adoption of Ind AS 116 on its financial statements and will accordingly consider the same from period beginning April 1, 2019.

(b) Other amendments

On March 30, 2019, the Ministry of Corporate Affairs (MCA) notified certain other amendments to Indian Accounting Standards (Ind AS), as below, as part of the Companies (Indian Accounting Standards) Second Amendment Rules, 2019. These other amendments come into force on 1 April 2019.

- (i) Appendix C, 'Uncertainty over Income Tax Treatments', to Ind AS 12, 'Income Taxes'
- The appendix explains how to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the

most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

- (ii) Plan Amendment, Curtailment or Settlement – Amendments to Ind AS 19, 'Employee Benefits'
- The amendments to Ind AS 19 clarify the accounting for defined benefit plan amendments, curtailments and settlements. The Company must:
 - calculate the current service cost and net interest for the remainder of the reporting period after a plan amendment, curtailment or settlement by using the updated assumptions from the date of the change;
 - any reduction in a surplus should be recognised immediately in profit or loss either as part of past service cost, or as a gain or loss on settlement. In other words, a reduction in a surplus must be recognised in profit or loss even if that surplus was not previously recognised because of the impact of the asset ceiling; and
 - separately recognize any changes in the asset ceiling through other comprehensive income.
- (iii) Ind AS 12, 'Income Taxes' - The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.
- (iv) Ind AS 23, 'Borrowing Costs' - The amendments clarify that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.

The effective date for adoption of amendments as per Companies (Indian Accounting Standards) Second Amendment Rules, 2019 is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and is in the process of evaluating the impact on account of above amendment on its financial statements and will accordingly consider the same from period beginning April 1, 2019.

b. Principles of consolidation

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The group controls

an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

c. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM"). The CODM consists of Chairman, CEO & MD and Executive Director of the Company, who are responsible for allocating resources and assessing performance of the operating segments. The Group operates only in one Business Segment i.e. textile business segment, hence does not have any reportable Segments as per Indian Accounting Standard 108 "Operating Segments".

d. Foreign Currency Transactions

i. Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the functional and presentation currency of Mafatlal Industries Limited.

ii. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

e. Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue is net of returns, trade allowances, rebates, discounts, value added taxes, goods and services tax and amount collected on behalf of third parties.

The Group recognizes revenue when the control in the goods is transferred in favour of the customers and the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group, there is no continuing managerial involvement with the goods and specific criteria have been met for each of the activities described below.

Timing of recognition

Revenue from sale of goods is recognised when the control in the goods are transferred to the buyer as per the terms of the contract. This generally happens upon dispatch of the goods to customers, except for export sales which are recognised when significant risk and rewards are transferred to the buyer as per the terms of contract.

Revenue from services is recognised in the accounting period in which the services are rendered.

Measurement of revenue

Revenue is measured at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and services tax, etc. Discounts given include rebates, price reductions and other incentives given to customers. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases. No element of financing is deemed present as sales are made with a credit term which is consistent with market practice.

f. Income tax

The income tax expense or credit for the period is the tax payable on the taxable income of the current period based on the applicable income tax rates adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Minimum Alternate Tax ('MAT') under the provisions of the Income Tax Act, 1961 is recognised as tax expense in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid will be recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the period for which the MAT credit can be carried forward for set off

against the normal tax liability. Such an asset is reviewed at each Balance Sheet date.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. However, deferred tax liabilities are not recognised if they arise from the initial recognition of Goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit /tax loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit or Loss, except to the extent that it relates to items recognised in Other Comprehensive Income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in equity, respectively.

g. Government grants

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to the purchase of Property, Plant and Equipment are included in non-current liabilities as deferred income and are credited to the Statement of Profit and Loss in proportion to depreciation over the expected lives of the related assets and presented within Other Income.

Government grants relating to income are deferred and recognised in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within Other Income.

Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

h. Leases

As a lessee

Finance lease

Leases of Property, Plant and Equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance

leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate expected inflationary cost increases for the lessor.

As a lessor

Finance Lease

Leases of Property, Plant and Equipment where the Group as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalised at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognised in the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period.

Under combined lease agreements, land and building are assessed individually. Lease rental attributable to the operating lease are charged to Statement of Profit and Loss as lease income whereas lease income attributable to finance lease is recognised as finance lease receivable and recognised on the basis of effective interest rate.

Operating Lease

Lease income from operating leases where the Group is a lessor is recognised as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Balance Sheet based on their nature.

Operating Lease Income

Rental income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

i. Property, plant and equipment:

Freehold land is carried at historical cost. All other items of Property, Plant and Equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within other gains/(losses).

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on the straight-line method to allocate the cost of assets, net of their residual values, over their estimated useful lives.

Depreciation is calculated on a pro-rata basis from the date of acquisition / installation till the date the assets are sold or disposed of:

Asset category	Estimated useful life
Building	30 years
Plant and Machinery	9.5 years
Furniture and Fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Leasehold Improvements	9 years

Land accounted under finance lease is amortised on a straight-line basis over the period of lease.

The carrying amount of an asset is written down immediately to its recoverable amount if the carrying amount of the asset is greater than its estimated recoverable amount.

The estimated useful life and depreciation method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Individual assets acquired for less than ₹ 5,000/- are entirely depreciated in the year of acquisition.

Transition to Ind AS:

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at April 01, 2016 measured under IGAAP as the deemed cost of the Property, Plant and Equipment.

j. Intangible assets

Computer software includes enterprise resource planning project and other cost relating to such software which provides significant future economic benefits. These costs comprise of license fees and cost of system integration services.

Computer software cost is amortised over a period of 3 years using straight-line method.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within other gains/(losses).

The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Research and development:

Research expenditure and development expenditure that do not meet the capitalisation criteria as mentioned above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Transition to Ind AS:

On transition to Ind AS, the Group has elected to continue with the carrying value of Intangible Assets recognised as at April 01, 2016 measured under IGAAP as the deemed cost of Intangible Assets.

k. Investment properties:

Land and building that is held for long-term rental yields or for capital appreciation or both, and that is not in use by the Group, is classified as Investment Property. Land held for a currently undetermined future use is also classified as an Investment Property. Investment property is measured initially at its acquisition cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an Investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives which is determined based on technical evaluation performed by the management's expert.

Transition to Ind AS:

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its Investment Property recognised as at April 01, 2016 measured under IGAAP as the deemed cost of Investment Property.

l. Impairment of assets:

The carrying amount of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal / external factors. An impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances and to the extent that carrying amount of the assets does not exceed the carrying amount that will be determined if no impairment loss had previously been recognised.

m. Cash and cash equivalents:

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term (3 months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

n. Trade receivables:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method, less provision for impairment.

o. Trade payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

p. Inventories

Raw materials, packing materials, purchased finished goods, work-in-progress, manufactured finished goods, fuel, stores and spares other than specific spares for machinery are valued at cost or net realisable value whichever is lower.

Items of inventory are valued at cost or net realisable value, whichever is lower after providing for obsolescence and other losses, where considered necessary. Cost is determined on the following basis:

- Stores, spares, raw materials and trading goods - Weighted average cost
- Process stock and finished goods - Material cost plus appropriate value of overheads
- Others (land) - At cost on conversion to stock-in-trade plus cost of improvement

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition.

Due allowances are made for slow moving and obsolete inventories based on estimates made by the Group. Items such as spare parts, stand-by equipment and servicing equipment which is not plant and machinery gets classified as inventory.

q. Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

r. Investments and other financial assets

i. Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the business model of the entity for managing financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election (on an instrument-by-instrument basis) at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

ii. Initial recognition and measurement:

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

iii. Subsequent measurement

After initial recognition, financial assets are measured at:

- Fair value {through Other Comprehensive Income (FVOCI) or through profit or loss (FVPL)} or,
- Amortised cost

Debt instruments

Subsequent measurement of debt instruments depends on the business model of the Group for managing the asset and the cash flow characteristics of the asset. There are 3 measurement categories into which the Group classifies its debt instruments:

Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the EIR method less impairment, if any, the amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

Measured at fair value through Other Comprehensive Income (OCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through Other Comprehensive Income. Fair value movements are recognised in the OCI. Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss.

On de-recognition, cumulative gain/(loss) previously recognised in OCI is reclassified from the equity to other income in the Statement of Profit and Loss.

Measured at fair value through profit or loss:

A financial asset not classified as either amortised cost or FVOCI, is classified as FVPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as other income in the Statement of Profit and Loss.

Equity instruments:

The Group subsequently measures all investments in equity instruments at fair value. The Management of the Group has elected to present fair value gains and losses on such equity investments in either Other Comprehensive Income or profit & loss. There is no subsequent reclassification of fair value gains and losses to the Statement of profit and loss where FVOCI option is chosen. Dividends from such investments continue to be recognised in the Statement of Profit and Loss as Other income when the right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Fair Value hierarchy

The judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements in the note 36. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

iv. Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments (Eg. trade receivables, other contractual rights to receive cash or other financial asset). The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Note 38 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

v. Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients. Where the Group has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

vi. Income recognition:

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

s. Financial liabilities and equity instruments

i. Classification as debt or equity

Debt and equity instruments issued by the entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

ii. Initial recognition and measurement

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

iii. Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iv. Derecognition

A financial liability is de-recognised when the obligation specified in the contract is discharged, cancelled or expires.

t. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counter party.

u. Derivative instruments

The Group holds derivative financial instruments such as foreign exchange forward and commodity futures to mitigate the risk of changes in exchange rates on foreign currency exposures and changes in prices of raw materials. The counter party for these contracts is generally a bank.

Derivative financial assets or liabilities are not designated as hedges. Although the Group believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments.

Derivatives not designated as hedges are recognised initially at fair value and attributable transaction costs are recognised in net profit in the Statement of Profit and Loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included

in Other income. Assets / liabilities in this category are presented as current assets / current liabilities if they are expected to be realised within 12 months after the Balance Sheet date.

v. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as Other income / (expense).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

w. Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

x. Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each reporting period and reflect the best current estimate.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flow estimated

to settle the present obligation, its carrying amount is the present value of those cash flows.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

y. **Employee benefits**

i. **Short-term employee benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. **Other Long-term employee benefits**

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. **Post-employment obligations**

Defined Benefits plan

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Balance Sheet is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is paid to trusts administered by the Group for certain employees, which in turn invests in eligible securities to meet the liability as and when it accrues for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss. For other employees, the Group makes contribution for certain employees whereas for some other employees the Group makes contribution to a

trust maintained by Life Insurance Corporation ('LIC') of India.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Provident fund contributions for certain employees are made to a trust administered by the Group in India. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year and any shortfall in the fund balance maintained by the Trust set up by the Group is additionally provided. Actuarial losses and gains are recognised in other comprehensive income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

Defined contribution plan

The Group contributes towards Employees State Insurance Scheme, Family Pension Fund, Superannuation Fund and Provident Fund for certain employees, which are defined contribution schemes.

The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

iv. **Share based payments**

The fair value of options granted under the Employee Option Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and

- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

z. Earnings per share

i. Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

z1. Exceptional Items

The term 'Exceptional items' is neither defined in Ind AS Schedule III nor in Ind AS. However, Ind AS 1 has reference to such items in paras 85, 86, 97 and 98.

Para 85 states that additional line items, headings and subtotals in the statement of profit and loss shall be presented, when such presentation is relevant to an understanding of the entity's financial performance.

Further, para 86 states that disclosing the components of financial performance assists users in understanding the financial performance achieved and in making projections of future financial performance. An entity considers factors including materiality and the nature and function of the items of income and expense.

Para 97 states that when items of income or expense are material, an entity shall disclose their nature and amount separately.

Para 98 gives circumstances that would give rise to the separate disclosure of items of income and expense and includes:

- (a) Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write-downs;

- (b) restructurings of the activities of an entity and reversals of any provisions for the costs of restructuring;
- (c) disposals of items of property, plant and equipment;
- (d) disposals of investments;
- (e) discontinued operations;
- (f) litigation settlements; and
- (g) other reversals of provisions.

Accordingly the Company has disclosed loss arising out of impairment of inventory, trade receivables and property, plant and equipment as loss arising out of exceptional items [Refer Note No. 34('c)].

aa. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

ab. Operating cycle

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

ac. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

2.1 Critical estimates and judgements

Preparation of the Financial Statements requires use of accounting estimates which, by definition, will seldom equal the actual results. This Note provides an overview of the areas that involved a higher degree of judgements or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

- a. Estimation of useful life of Property, plant and equipment: Note 1 (i)
- b. Estimation of defined benefit obligation: Note 40
- c. Estimation of fair value of level 3 financial instruments - Note 36
- d. Contingent Liabilities- Note 42

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(iv) Leasing arrangements
a) Operating Leases

The Group has given certain investment properties on operating lease. These lease arrangements range for a period between eleven to sixty months and include both cancellable and non-cancellable leases. Most of the leases are renewable for further period on mutually agreeable terms. With respect to non cancellable operating lease, the future minimum lease payment as at Balance Sheet date is as under (Refer Note 43):

Particulars	As at March 31, 2019	As at March 31, 2018
Within one year	103.51	181.44
Later than one year but not later than five years	45.11	14.48
Total	148.62	195.92

b) Finance leases

Investment property includes a land portion taken on lease by the Group for a period ranging from 80 to 99 years with an option to extend the lease by another 99 years on expiry of lease. However, the Group has no specific obligation towards renewal of land. The Group has considered that such a lease of land transfers substantially all of the risks and rewards incidental to ownership of land, and has thus accounted for the same as finance lease.

(v) Fair value of investment properties

Particulars	As at March 31, 2019	As at March 31, 2018
Investment properties	12,831.73	12,795.40

Estimation of fair value

The fair valuation is based on current prices in the active market for similar properties. The main inputs used are quantum, area, location, demand, rental growth rates, expected vacancy rates, terminal yields and discount rates. All resulting fair value estimates for investment properties are included in level 3. The Group obtains independent valuations for its investment properties annually.

(vi) The Group is in the process of getting expired leases renewed in respect of Mazgaon and Lower Parel Land.

Transferred Receivables

The carrying amounts of the trade receivables include receivables which are subject to a discounting arrangement. Under this arrangement, the Group has transferred the relevant receivables to the factor in exchange for cash and is prevented from selling or pledging the receivables. However, the Group has retained late payment and credit risk. The Group therefore continues to recognise the transferred assets in their entirety in its balance sheet. The amount repayable under the discounting is presented as secured borrowing.

The Group has recognised the Deferred Tax Asset on unabsorbed depreciation of earlier years. During the year the Group has undertaken certain strategic initiatives to which will results in cost reduction in future [Refer Note 34(c)]. They relate to one off the cost of integrating the operations and are not expected to recur in near future. The Group has concluded that the deferred tax assets will be recoverable partially compensated by decrease in deferred tax liabilities and excess will be recovered using estimated future taxable income. Further, unabsorbed depreciation can be carried forward for infinite period as per tax regulations.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard as follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the other unquoted equity investments is determined based on the report of the valuer
- the fair value of forward foreign exchange contracts is determined using foreign exchange rates at the balance sheet date

(iii) Valuation processes

The finance department of the Group obtains assistance of independent and competent third party valuers to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This expert reports to the financial risk management team and Chief Financial Officer (CFO). Discussion of valuation processes and results are held between the CFO and the valuation team at least once every three months, in line with the Group's quarterly reporting periods.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless stated otherwise)

The main level 3 inputs used by the group are derived and evaluated as follows:

- Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.
- Risk adjustments specific to the counter parties (including assumptions about credit default rates) are derived from credit risk grading determined by the Group's internal credit risk management committee.

Changes in level 2 and 3 fair values are analysed at the end of each reporting period during the quarterly valuation discussion between the financial risk management team, CFO and the valuation experts. As part of this discussion the team presents a report that explains the reason for the fair value movements.

Note 37 - Share Based Payments

(a) Employee option plan

The Mafatlal Employee Stock Option Scheme 2017 (ESOS) of Mafatlal Industries Limited was approved by the Board of Directors of the Company at their meeting held on May 5, 2017 and finalised on August 10, 2017. At the Annual General Meeting held on August 02, 2017, the shareholders had approved the creation of employee stock option pool of 695,000 equity shares of face value of ₹ 10/- each fully paid up on such terms and such manner as the Board may decide in accordance with the provisions of applicable law and proposed Mafatlal Employee Stock Option Scheme 2017 (ESOS). The Company intends to implement ESOS with a view to attract and retain key talents working with the Company by way of rewarding their performance and motivate them to contribute to the overall corporate growth and profitability. The Nomination & Remuneration Committee (NRC) will administer the ESOS. On November 10, 2017 the NRC has granted 138,000 options with a progressive vesting to certain senior management employees and the vesting of options will be @15% on 1st Anniversary, 20% on 2nd Anniversary, 30% on 3rd Anniversary, 35% on 4th Anniversary, of grant date.

Once vested the options remain exercisable for a period of four years.

Options are granted under the plan for no consideration and carry no dividend or voting rights. When exercisable, each option is convertible into one equity share. The exercise price of the options is fair market price of the share as on date of grant of options.

Set out below is a summary of options granted under the plan

(i) Fair Value of options granted

The weighted average fair value at grant date of options granted during the year ended March 31, 2019 was ₹ 140.20 per option (March 31, 2018 - ₹ 145.78). The fair value at grant date is determined using the Black and Scholes Model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of option.

The model inputs for options granted during the year ended March 31, 2019 included:-

- options are granted for no consideration and vest upon completion of service for a period of 1-4 years. Vested options are exercisable for a period of four years after vesting.
- exercise price: ₹ 322.70
- grant date: November 10, 2017
- expiry date: November 10, 2022 - November 10, 2025

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless stated otherwise)

- (e) share price at grant date: ₹ 314.10
- (f) expected price volatility of the Company's shares: 48.32% - 51.99%
- (g) expected dividend yield: 1.69%
- (h) risk free interest rate: 6.51% - 6.91%

The expected price volatility is based on the historic volatility (based on the remaining life of the options) adjusted for any expected changes to future volatility due to publicly available information.

(b) Expenses arising from share based payment transactions

Total expenses arising from share based payment transactions recognised in profit and loss as part of employee benefits expense were as follows:-

Note 38 - Financial risk management

The Group's business activities exposes it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Group's senior management and key management personnel have the ultimate responsibility for managing these risks. The Group has a mechanism to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group's senior management and key management personnel are supported by the finance team and respective business divisions that provides assurance that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The activities are designed to protect the Group's financial results and position from financial risks; and maintain market risks within acceptable parameters, while optimising returns.

(A) Management of liquidity risk

The principal sources of liquidity of the Group are cash and cash equivalents, borrowings and the cash flow that is generated from operations. The Group believes that current cash and cash equivalents, tied up borrowing lines and cash flow that is generated from operations is sufficient to meet requirements. The Group is cognizant of reputational risk that are associated with the liquidity risk and such risk is factored into the overall business strategy. The following table shows the maturity analysis of financial liabilities of the Group based on contractually agreed undiscounted cash flows as at the Balance Sheet date:

(B) Management of market risk

The size and operations of the Group results in it being exposed to the following market risks that arise from its use of financial instruments:

- i) price risk
- ii) interest rate risk
- iii) Commodity risk
- iv) foreign exchange risk

The above risks may affect income and expenses, or the value of its financial instruments of the Group. The objective of the Management of the Group for market risk is to maintain this risk within acceptable parameters, while optimising returns. The Group exposure to, and the management of these risks is explained below:

Potential impact of risk	Management policy	Sensitivity to risk
i) Price risk		
<p>The Group is mainly exposed to the price risk due to its investments in equity instruments. The price risk arises due to uncertainties about the future market values of these investments.</p> <p>Equity price risk is related to the change in market reference price of the investments in equity securities.</p> <p>In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities. The fair value of quoted equity instruments classified as fair value through Other Comprehensive Income as at March 31, 2019 is ₹ 37,315.73 Lakhs (March 31, 2018: ₹ 49,943.85 Lakhs).</p>	<p>In order to manage its price risk arising from investments in equity instruments, the Group maintains its portfolio in accordance with the framework set by the Risk Management policies.</p> <p>Any new investment or divestment must be approved by the Board of Directors, Chief Financial Officer and Risk Management Committee.</p>	<p>As an estimation of the approximate impact of price risk, with respect to investments in equity instruments, The Group has calculated the impact as follows:</p> <p>For equity instruments, a 5% increase in Sensex prices would have led to approximately an additional ₹ 1929.60 Lakhs gain (March 31, 2018- ₹ 2,497.18 Lakhs gain). A 5% decrease in Sensex prices would have led to an equal but opposite effect.</p>
ii) Interest rate risk		
<p>Financial liabilities</p> <p>The Company is mainly exposed to interest rate risk due to its variable interest rate borrowings. The interest rate risk arises due to uncertainties about the future market interest rate of these borrowings.</p> <p>As at March 31, 2019, the exposure to interest rate risk due to variable interest rate borrowings amounted to ₹ 20,697.16 Lakhs (March 31, 2018: ₹ 23,359.76 Lakhs)</p>	<p>The Group monitors fluctuations in interest rate continuously and has laid policies and guidelines including to minimise impact of interest rate risk.</p>	<p>As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Company has calculated the impact of a 25 bps change in interest rates. A 25 bps increase in interest rates would have led to approximately an additional loss of ₹ 53.08 Lakhs (March 31, 2018: ₹ 55.91 Lakhs additional loss). A 25 bps decrease in interest rates would have led to an equal but opposite effect.</p>
iii) Commodity risk		
<p>Commodities form a major part of the raw materials required for Group's products portfolio and hence commodity price risk is one of the important market risk for the Group. The commodities are priced using pricing benchmarks and commodity derivatives are priced using exchange-traded pricing benchmarks.</p>	<p>The Group has a robust framework and governance mechanism in place to ensure that the organisation is adequately protected from the market volatility in terms of price and availability.</p> <p>Group has managed the commodity risk with appropriate hedging activities in accordance with policies of the Group. The aim of the Group's approach to manage commodity risk is to leave the Group with no material residual risk. The Group uses future contracts to hedge against its commodity exposures relating to cotton which is its most widely used raw material.</p>	<p>As an estimation of the approximate impact of the residual risk, with respect to commodity futures, the Company has calculated the impact of a 5% change in futures rates.</p> <p>A 5% strengthening of the respective futures would result in additional loss / gain of NIL (March 31, 2018 - NIL) impact on profit and equity. This analysis assumes that all other variables remain constant.</p> <p>A 5% weakening of the futures would have led to an equal but opposite effect.</p>

iv) Foreign exchange risk		
The Group has international operations and is exposed to foreign exchange risk arising from foreign currency transactions. Foreign exchange risk arises from future commercial transactions and recognised Financial assets and liabilities denominated in a currency that is not the functional currency (INR) of the Group. The risk also includes highly probable foreign currency cash flows.	<p>The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to USD, EURO, GBP and AED.</p> <p>The aim of the Group's approach is to manage the currency risk and to leave the Group with no material residual risk. This aim has been achieved in all years presented.</p> <p>The Group manages currency exposures within prescribed limits, through use of forward exchange contracts. Foreign exchange transactions are fully covered with strict limits placed on the amount of uncovered exposure, if any, at any point in time.</p>	<p>As an estimation of the approximate impact of the foreign exchange rate risk, with respect to Financial Statements, the Group has calculated the following:</p> <p>For derivative and non-derivative financial instruments, a 5% increase in the spot price as on the reporting date would result in increase in profit and equity as of ₹ 74.91 Lakhs (March 31, 2018: gain of ₹ 162.39 Lakhs). A 5% decrease would have led to an equal but opposite effect.</p>

(C) Management of credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counter party fails to meet its contractual obligations.

Trade receivables

Concentration of credit risk with respect to trade receivables are limited, due to the customer base being large, diverse and across sectors and countries. All trade receivables are reviewed and assessed for default on a quarterly basis.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counter party,
- Financial or economic conditions that are expected to cause a significant change to the counter party's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counter party.
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless stated otherwise)

In furtherance to above, the Group has assessed the impact of the simplified approach permitted by Ind AS 109 financial instruments, which requires expected lifetime losses to be recognised in respect of trade receivables. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the micro economic indicators affecting customers of the Group have not undergone any substantial change, the Group expect the historical trend of minimal credit losses to continued.

Other financial assets

The Group maintains exposure in cash and cash equivalents, term deposits with banks. The Group has a diversified portfolio of investment with various number of counter parties which have secure credit ratings, hence the risk is reduced. Individual risk limits are set for each counter party based on financial position, credit rating and past experience. Credit limits and concentration of exposures are actively monitored by the treasury department of the Group.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Group. Where loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised as income in the Statement of Profit and Loss.

Note 39 - Capital Management

(a) Risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the balance sheet) less cash and cash equivalents and other bank balances. Total capital is calculated as 'equity' as shown in the balance sheet.

Description	March 31, 2019	March 31, 2018
Total Borrowings	18,769.68	19,792.69
Total Equity	50,710.60	79,852.08

(i) Compensated Absences

The employees of the Group are entitled to compensated absences as per the policy of the Group. The entire amount of the provision of compensated absences is presented as current, since the Group does not have an unconditional right to defer settlement for the obligation. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months.

Particulars	As at March 31, 2019	As at March 31, 2018
Current leave obligations not expected to be settled within the next 12 months	421.65	471.58

(ii) Post employment obligations
(a) Defined Contribution Plans:

The Group contributes towards Employees State Insurance Scheme, Family Pension Fund, Superannuation Fund and Provident Fund for certain employees. The contributions are normally based on a certain proportion of the employee's salary. During the year the Group has recognised contribution to these funds aggregating to ₹ 620.87 Lakhs (March 31, 2018- ₹ 755.84 Lakhs) (Refer Note 31).

(b) Defined Benefit Plans:
Gratuity

The Group provides for gratuity for employees as per the Group policy. The amount of gratuity payable on retirement/termination is payable to the employees based on last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Group has established Fund to which the Group makes contribution for certain employees whereas for some other employees the Group makes contribution to a trust maintained by Life Insurance Corporation ('LIC') of India. The contributions are made to a gratuity based upon actuarial valuation done at the year end of every financial year using "Projected Unit Credit" method. The charge on account of provision for gratuity has been included in 'Employee Benefits Expense' in the Statement of Profit and Loss except remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability which are recognised in other comprehensive income.

Provident fund

In respect of certain employees, provident fund contributions are made to a separately administered trust. Such contribution to the provident fund are charged to the Statement of Profit and Loss. In case of any liability arising due to shortfall between the return from its investments and the guaranteed specified interest rate, the same is provided for by the Group. The actuary has provided an actuarial valuation and the interest shortfall liability, if any, has been provided in the books of accounts after considering the assets available with the provident fund trust.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to increase and decrease in the the weighted principal assumptions by 0.50% is as below:

Particulars	Impact on defined benefit obligation			
	Increase in assumptions		Decrease in assumptions	
	March 31, 2019	March 31, 2018	March 31, 2019	March 31, 2018
Discount Rate / Return on plan assets				
Gratuity	(80.78)	(101.76)	85.76	108.51
Rate of salary increase				
Gratuity	88.37	112.01	(83.87)	(105.80)
Rate of employee turnover				
Gratuity	21.70	33.42	(22.82)	(35.32)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(iii) The major categories of plans assets are as follows:

The plan asset for the funded gratuity plan is administered by Life Insurance Corporation of India ('LIC') and Trust managed by the Fund as per the investment pattern stipulated for Pension and Group Schemes fund by Insurance Regulatory and Development Authority regulations i.e. 100% of plan assets are invested in insurer managed fund. Quoted price of the same is not available in active market.

(iv) Risk Exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Asset volatility : The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. 100% of the plan asset investments is in insurer managed funds. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless stated otherwise)

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation

Interest-Rate Risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

(v) Defined Benefit Liability and Employer Contributions

Expected contributions to post-employment benefit plans for the year ending March 31, 2020 are ₹ 266.29 Lakhs.

The weighted average duration of the defined benefit obligation is 7-11 years (2018 - 7-11 years). The expected maturity analysis of undiscounted gratuity is as follows:

- (b) The Group is a lessee in respect of the land on which Mafatlal Centre and Mafatlal Chambers is erected. In this regard:

In case of Mafatlal Centre:

A demand for ₹ 2,696.98 Lakhs (March 31, 2018 ₹ 2,696.98 Lakhs) for the period from 2004-07 and 2008-10 has been raised by Brihanmumbai Mahanagarpalika ('BMC') towards Property Taxes in respect of the properties owned by various owners for the respective floors. The demand has been challenged by owners of various floors at appropriate forum and the matter is subjudice. In case the demand is finally upheld, the amount will be paid by the concerned co-owners and the group will have no additional liability.

In case of Mafatlal Chambers:

A demand for ₹ 792.46 Lakhs (March 31, 2018 ₹ 792.46 Lakhs) for the period 2000-05 has been raised by Brihanmumbai Mahanagarpalika ('BMC') towards Property Taxes in respect of the properties owned by the Group at the relevant time. The said demand has been disputed by the Group. As per the directions given by the Honourable Bombay High Court, the BMC has granted hearing to the Group and the final outcome is awaited.

- (c) It is not practicable for the Group to estimate the timing of cash flows, if any, in respect of the above pending resolution of the respective proceedings.
- (d) The Group does not expect any reimbursement in respect of the above contingent liabilities.
- (e) The Group believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Group's financial position and results of operations.

Note 46 - Government Grant

Export Promotion Capital Goods (EPCG): This scheme allows import of certain capital goods including spares at zero duty subject to an export obligation for the duty saved on such capital goods. The duty saved on capital goods imported under EPCG scheme being Government Grant, is accounted as a Capital Grant as stated in the Accounting policy on Government Grant (Refer Note 2).

Technology Upgradation Fund Scheme (TUFS): The Group is entitled to subsidy, on its investment in the property, plant and equipment, on fulfilment of the conditions stated in those Scheme. Under Duty drawback scheme, the Group receives certain percentage of export proceeds as a duty drawback from custom authorities on export of products. Under incremental incentive scheme, Group receives scrips for incremental exports. These subsidies being Government Grant with primary condition as export of products are accounted as a Revenue Grant as stated in the Accounting policy on Government Grant (Refer Note 2).

The Government Grant above represents unamortised amount of the subsidy referred to below, with the corresponding adjustment to the carrying amount of property, plant and equipment (Refer Note 3).

Note 50

The Group is in the process of evaluating the impact of the recent Supreme Court Judgment in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-1/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. In the assessment of the management which is supported by legal advice, the aforesaid matter is not likely to have a significant impact and accordingly, no provision has been made in these Financial Statements.

Note 51

- As legally advised, the Group has not recognised as income recovery of rent and other charges of ₹ 83.61 Lakhs upto March 31, 2019 (₹ 83.61 Lakhs upto March 31, 2018) pending final resolution of legal dispute with certain ex-tenants of a property in South Mumbai. At present, the legal dispute is pending with the Hon'ble Bombay High Court. A sum of ₹ 577.89 Lakhs (Net) was withdrawn by the Group in accordance with the Orders passed by the Hon'ble High Court of Bombay on the Civil Revision Applications filed by the ex-tenants and the said amount of ₹ 577.89 Lakhs has been included in other current liabilities.
- In an earlier year, the Group had sold part of its leasehold land at its Mazgaon unit. During the current financial year, the Group has surrendered the remaining leasehold land (reserved portion admeasuring about 27,287.82 square meters) to Municipal Corporation of Greater Mumbai for the purpose of extension of V.J.B. Udyan. The Group is also required to recommence the spinning unit which can accommodate 10,000 spindles. By virtue of the agreement, the developer will construct a structure and hand it over to the Group.
- Pursuant to the demerger of the Real Estate and Investment Business to Sulakshana Securities Limited (SSL) in 2002, the shareholders of the Group are to be issued one equity share of ₹ 10/- each, fully paid-up, in SSL for every 500 shares of ₹ 100/- each, fully paid-up, held in the Group as consideration for the demerger, aggregating to ₹ 1.00 lakh. As the shareholders of The Group would be entitled to receive only fractional shares of SSL, the rehabilitation scheme sanctioned by BIFR envisages that these shares would be acquired by Navin Fluorine International Limited (NFIL) and the shareholders of the Group would receive proportionate payment in consideration thereof. The Group has received the said amount of ₹ 1.00 lakh from NFIL on behalf of the shareholders, which is pending disbursement upon completion of formalities.
- During the quarter ended 30th September 2018, the Hon'ble Bombay High Court passed an order partially allowing the Writ Petition No.2982 of 2016 filed by the Company. The demand notice of ₹ 454.35 crores issued by the Collector, Mumbai City in respect of part of the Mazagaon land (developable land) has been set aside in line with earlier decision of the Hon'ble Bombay High Court on the similar issue in other matters. The said earlier decision of the Hon'ble Bombay High Court on the same issue has been challenged by the State Government in the Hon'ble Supreme Court by filing Special Leave Petition (SLP) in which the Company has also been made one of the respondents. In the SLP filed by the Company against the aforesaid Order, in so far as it relates to rejection of the claim of the Company for non-cash compensation benefit (TDR) against surrender of a part of land at Mazagaon (reserved land) to Municipal Corporation of Greater Mumbai (MCGM) has been dismissed by the Hon'ble Supreme Court, with liberty to the Company to explore the alternative remedies available to it in accordance with law. As legally advised, against the aforesaid Order of the Hon'ble Bombay High Court denying TDR benefits to the Company against surrender of Reserved Land, the Company has filed a review petition in the Hon'ble Bombay High Court.

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2019

(All amounts in ₹ Lakhs, unless stated otherwise)

- (v) The consolidated financial statements of the Group - Mafatlal Industries Limited have been prepared in accordance with Indian Accounting Standard (Ind.AS)-110 on 'Consolidated Financial Statements'. The details of such entities are as under:

Name of the entity	% Holding of the Group
Mafatlal Services Limited (subsidiary incorporated in India)	88.00%
Ibiza Industries Limited	54.89%
Sunanda Industries Limited	94.00%
Al Fahim Mafatlal Textile LLC-UAE	49.00%
Mafatlal Limited (incorporated in United Kingdom)	29.83%
Mafatlal Engineering Industries Limited (incorporated in United Kingdom)	22.18%
Mafatlal Global Apparel Limited (since 29th September 2012)	-

- (a) There has been no change in the percentage holding of the Group in its three subsidiaries existing as at the year ended March 31, 2018 and March 31, 2019.
- (b) Consequent to Ibiza Industries Limited (IIL) and Sunanda Industries Limited (SIL) which have gone under liquidation in the earlier years, the Group effectively has no control over IIL and SIL. The liquidation is being carried out by court appointed liquidator. In absence of power over the relevant activities and variable returns, the Group effectively has no control over above entities. Hence, in accordance with the requirements of Ind AS -110 on "Consolidated Financial Statements" issued by the Institute of Chartered Accountants of India (ICAI) and specified under Section 133 of the Companies Act, 2013, the same have not been consolidated.
- (c) In case of Al Fahim Mafatlal Textile LLC - UAE - the joint venture, it is in the process of liquidation and hence the Group does not have joint control over the entity. Accordingly the unaudited financial statement have not been considered for consolidation.
- (d) Mafatlal Global Apparel Limited ceases to be an associate with effect from March 23, 2015.
- (e) The other entities are in the process of liquidation and the Group ceases to have any significant influence over these entities and accordingly they have not been considered for consolidation.
