About Us

Mafatlal Industries Ltd was established in 1905, as one of the leading Textile Mills in the country, serving the nation since last 118 years with their fine Textile fabrics and a market leader in all kinds of Uniforms.

Recently Mafatlal Industries Limited brought to the market the most comprehensive range of Disposable Healthcare, Hygiene and Wellness related apparels and accessories solutions.

Our products are manufactured in the state-of-the-art facility, using imported machinery and International standards under strict quality control. We use Medical Textiles and Performance Fabrics in the Infection Control Arena

OUR INFECTION CONTROL PLATFORM IS DIVIDED INTO 3 VARIANTS:

Medical Disposable Apparels

Medical Packaging

Wound care

Our USP is that all the products are produced in Positive Static Pressure Room facility with completely hands-free operation and having in-house ETO Sterilisation facility.

The products are designed to meet the specific needs of medical professionals in medical Institutions eliminating a major contamination worry in the Operation Theatre. We have adopted the primary principle of “Unconditional Customer Satisfaction” Mafatlal is always the solution partner of its customers by providing them with the best solutions and impact training that are results of several clinical studies.

Our goal is to reduce the cost of health services whilst increasing the safety of patients and healthcare personnel.

ARVIND MAFATLAL GROUP
The ethics of excellence

About Us

Mafatlal manufactures in an hygienic environment within an area of approximately 5000 sq. meters. All processes follow the requirements of ISO 9001-2018, ISO 13485, and CE standards. The sterile packaging area is a (Class 100,000) (Hepa filter) room divided into sections with controlled inputs and outputs.

Surgical Packs, Surgical Drapes, and Surgical Gowns produced with new technological machines are packaged and sterilised according to user demands. A wide range of product lines has been installed and sterilisation process is carried out with its own 350 cubic meter steriliser installed in house and all control tests are carried out daily in its own state of the art Laboratory. In addition they are validated from time to time in International accredited Laboratories.

OUR MISSION

Mafatlal was established to meet the needs of the sector, to produce high quality and best fitted products with innovative approaches, to contribute to customer satisfaction, safety and protection of human health.

OUR VISION

Leader in the sector, with sustainable R&D activities , example of customer–employee satisfaction and social responsibility , Mafatlal envisages to be a well recognised brand in the International market.

OUR VALUES

To ensure a sustainable growth with our customers, employees, suppliers and others stakeholders.

- 100% CUSTOMER SATISFACTION
- TRANSPARENCY AND RESPONSIBILITY
- LEGAL COMPLIANCE
- ENVIRONMENTAL AWARENESS
- SUSTAINABILITY

SURGICAL GOWNS

GOWNS

SMS SURGICAL GOWNS

BETTER FIT AND ADJUSTABLE

SMS gowns are roomier in the chest and sleeves to help provide a better fit. They also feature an adjustable velcro-style neck closure.

FLAME RESISTANT

SMS gowns are resistant to ignition. The fabric has a naturally low rate of flame spread and meets the Standard for Flammability of Clothing Textiles CPSC 16 CFR Part 1610.

LOW-LINTING

SMS gowns are low linting. Because they are made from polypropylene, the gowns are naturally low in lint.

THREE LAYERS OF PROTECTION

Our SMS technology utilizes three layers of fabric to provide a high level of fluid repellency. This helps provide a barrier to blood, body fluids and pathogens. The fabric features one densely- packed meltblown layer sandwiched between two strong, spunbond outer layers.

BREATHABLE AND MORE COMFORTABLE THAN OTHER SMS GOWNS

Moisture vapor escapes at nearly twice the rate as other SMS gowns, allowing you to remain more comfortable. We are committed to helping you select the best protection for each procedure. New enhancements to the WeCare Non- Reinforced AAMI Level 3 Surgical gown make it easier for you to find and select the appropriate level of protection :

- AAMI Level 3 and AAMI Level 4 Surgical Gown options
- Multiple size options to ensure the right fit at the right AAMI Level
- Quickly differentiate between AAMI Level 3 and AAMI Level 4 gowns based on the color coded packaging and the new royal blue color of our AAMI Level 3 Non - Reinforced Surgical Gown.

UNDERSTANDING THE AAMI STANDARDS

Know the difference. It's about your safety. All surgical gown manufacturers must meet a set of detailed standards set up by the Association for the advancement of Medical Instrumentation. (AAMI) This is considered the standard in surgical gown manufacturing. Based on objective tests, the standards measure barrier effectiveness against penetration from blood bodily fluids and other potentially infectious materials.

ARVIND MAFATLAL GROUP
The ethics of excellence

Selection of ANSI / AAMI PB70 standard recognized by the FDA

<p>Type of PPE Feature Tested Standard Designation Description</p> <p>Applicability</p>	<p>Gowns Liquid Barrier Performance AAMI PB70:2012 Classifies a gown's ability to act as a barrier to penetration by liquids or liquid-borne pathogens based on four levels. The critical protective zones for surgical and non-surgical gowns are defined differently E the standard. While the critical zones designate different protective areas for the different gowns, the levels of protection are the same for both surgical and non-surgical gowns</p> <p>Liquid barrier performance is not related to the strength of the material.</p>
<p>Level 1 Description</p> <p>Applicability</p>	<p>This standard references several other standards</p> <ul style="list-style-type: none"> • Used for MINIMAL risk situations • Provides a slight barrier to small amounts of fluid penetration • Single test of water impacting the surface of the gown material is conducted to asses barrier protection performance. <p>Basic care, standard hospital medical unit</p>
<p>Level 2 Description</p> <p>Applicability</p>	<ul style="list-style-type: none"> • Used in LOW risk situations • Provides a barrier to larger amounts of fluid penetration through splatter and some fluid exposure through soaking • Two tests are conducted to assess barrier protection performance: <ul style="list-style-type: none"> • Water impacting the surface of the gown material • Pressurizing the material <p>Blood draw from a vein, Suturing, Intensive care unit, Pathology lab</p>
<p>Level 3 Description</p> <p>Applicability</p>	<ul style="list-style-type: none"> • Used in MODERATE risk situations • Provides a barrier to larger amounts fluid penetration through splatter and more fluid exposure through soaking than Level 2 • Two tests are conducted to test barrier protection performance: <ul style="list-style-type: none"> • Water impacting the surface of the gown material • Pressurizing the material <p>Arterial blood draw, Inserting an IV, Emergency Room, Trauma</p>
<p>Level 4 Description</p> <p>Applicability</p>	<ul style="list-style-type: none"> • Used in HIGH risk situations • Prevents all fluid penetration for up to 1 hour • May prevent VIRUS penetration for up to 1 hour • in addition to the other tests conducted under levels 1-3, barrier level performance is tested with a simulated blood containing a virus. If no virus is found at the end of the test, the gown passes. <p>Pathogen resistance, Infectious diseases (non-airborne), Large amounts of fluid exposure over long periods</p>

BREATHABLE VIRAL BARRIER SURGEON GOWN

Medimaf BVB Gown

- Meets IS 17334, AAMI PB 70 level 4, EN 13795 global standards.⁽¹⁾
- Breathable and viral barrier high performance fabric, resistant to fluid penetration and blood strike through.
- Free from skin irritation, skin sensitisation and cytotoxicity.⁽²⁾
- Resistant to microbial penetration.⁽³⁾
- Virtually Lint free and abrasion resistant.⁽⁴⁾
- Ultrasonically sealed seams.
- Raglan Sleeves with comfortably knitted cuffs.
- Velcro Hook and loop for adjustable neckline.
- Book folded for aseptic handling and usage.
- EO Sterilised as per ISO11135 Standards.⁽⁵⁾
- Pouch packed in certified and validated medical grade packs.⁽⁶⁾

SURGICAL DRAPES & PACKS

DRAPES & PACKS

ABOUT OUR DRAPES

THE BROADEST LINE IN THE INDUSTRY

We offer wide range of options, which is especially designed for each purpose. 2 - layers basic laminated materials is the exceptional feature of our Surgical drapes.

SOME BENEFITS OFFERED BY OUR PRODUCTS:

- 100% impermeable
- High absorption capacity and speed
- Low level of linting
- Strong and durable
- Soft feel and conforms easily to the body.
- Latex free.

ENHANCED DRAPE FEATURES INCLUDE :

- Royal blue colour for SMS drape fabric
- Helps reduce glare from operating lights
- Provides colour contrast between drape fabric and reinforced areas for visual definition of critical zone.
- Standardised absorbent reinforcement material in critical zones.
- Creates a more consistent look , feel, and experience for clinicians.
- Enhanced reinforcement sizing on select codes

ARVIND MAFATLAL GROUP
The ethics of excellence

THE HIGH STANDARD O.R. DRAPES AND GOWNS

OUR DESIGN :

All our drapes and gowns are developed with the help from Operation room Professionals around the globe. While designing and developing , we have tried to add as many features as much as possible for a better performance. The O.R. professionals have shared their experience with our team, so we did get a good sense of what features. Hence, Mafatlal developed an innovative line of products which can be used with confidence.

VELCRO STYLE LINE HOLDERS:

Drapes with Velcro-style tube and line holders to place surgical tools will help keep them clear of the working area. The Velcro is easy to use, even when wearing gloves. This is one of the key feature we have developed for the drapes.

TAPE AND INCISE FILM:

We use premium tape and incise film on all drapes. Our tape is manually placed to the fenestration which prevent pooling of blood and fluid underneath the drape. Since, the tape is placed manually, it allows the tape to be closer to the fenestration compared to other drapes.

LARGE IMPERVIOUS REINFORCEMENT ZONE:

Fenestrations and splits are surrounded with a large impervious reinforcement. This area absorbs fluids and is plastic-backed to make the area impervious to blood and body fluids as well as bacterial transmission.

- We understand that each O.R. team may have different preferences in a surgical gowns, that's why our gowns are available in different materials and in various combinations, to provide each user with the best fit.
- All gowns are cut wider in the chest and sleeves for a better fit. Our gown features an adjustable Velcro-style neck closure which allows the neckline to easily adjust to a wide variety of people, while also helping to prevent gapping in the front which serves as additional protection against fluids.

ARVIND MAFATLAL GROUP
The ethics of excellence

STERILE PROCEDURE TRAYS / PACKS

Today, there is increased pressure on hospital management to improve efficiency and reduce costs while minimising harm to the environment. Low prices alone are no longer enough.

You need :

- Products designed to make your process leaner.
- High Quality
- Environmentally friendly options

Mafatlal's Sterile procedure trays are compact ready to use which can be replaced with just one item instead of dozens.

Sterile procedure trays reduce set-up time, leaving more time for training patients. With fewer items to open, there is also a reduced risk of contamination. Procedure trays are assembled in dedicated clean rooms and undergo a validated ETO sterilisation process.

OUR RANGE OF PACKS

STANDARD PACKS

For commonly performed procedures, Mafatlal offers standard surgical packs. These Sterile Procedure Trays (SPT's) can help you save money, streamline your inventory and improve efficiency.

CUSTOMISED PROCEDURE TRAYS (CPT's)

In addition we offer customized packs, which allow you to select list of alternative components that are both clinically effective and cost efficient, without compromising the custom pack performance you expect from Mafatlal.

ARVIND MAFATLAL GROUP
The ethics of excellence

STERILE PROCEDURE TRAYS / PACKS

Mafatlal's surgical procedure packs provide the following attributes:

INFECTION PREVENTION:

Protect your healthcare teams and patients from infections both in the operating theatre and patient care units.

MEDICAL TEXTILES / PERFORMANCE APPARELS

We know you rely on disposable apparel to keep your staff protected and comfortable. For this reason, we use fine materials available for protection, offering a great level of comfort. We apply high quality standards to our products in our manufacturing facilities, Mafatlal is ISO 13485 certified.

HOW TO CHOOSE THE RIGHT MATERIAL ?

SPUNBOND POLYPROPYLENE :

The standard fabric for basic protective apparel is formed by bonding fibers together to form a single layer of breathable, woven like material. Its main advantages are economy and comfort.

MULTI - PLY MATERIAL (SMS) :

This fabric consists of inner layers of meltblown polypropylene sandwiched between outer layers of spunbond polypropylene. Strong fluid resistant and breathable, this multi-layer material provides an optimal mix of protection and comfort.

POLYETHYLENE :

This single layer of Polyethylene film provides high barrier properties at a very attractive price. This film is ideal for situations when impervious feature is needed.

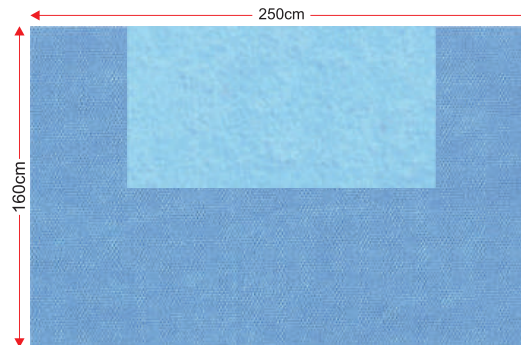

PREVENTIVE PLUS :

This impervious and breathable material consists of a hybrid film laminated between two layers of bi-component spunbond material. This fabric is ideal for long interventions when impervious protection is needed.

FENESTRATED DRAPES

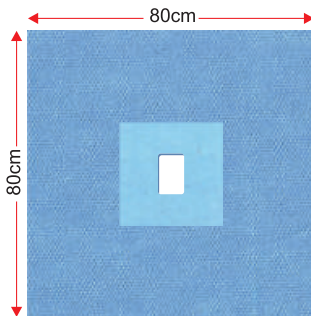

Product Name Medimaf - Fenestrated Drape

Size 80cm * 100cm

Product Code **MFFD8010**

Description

Used for minor surgical procedure, having fenestration of 3" diameter with adhesive around fenestration

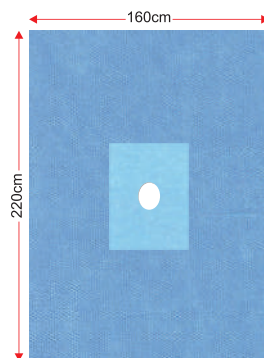

Product Name Medimaf - Fenestrated Drape

Size 80cm * 80cm

Product Code **MFFDR8080**

Description

Surgical drape having fenestration of 9cm*5cm with adhesive around fenestration. Reinforced with spunlace absorbent.

Product Name Medimaf - Fenestrated Drape

Size 220cm * 160cm

Product Code **MFAD2216**

Description

Surgical drape having fenestration of 8" diameter having adhesive around fenestration. Reinforced with spunlace absorbent.

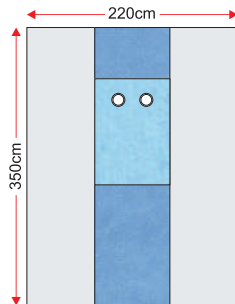

DRAPES & PACKS

■ CARDIOLOGY

CARDIOLOGY DRAPES

Medimaf Cardiology drapes made from polypropylene SMMS non-woven fabric, absorbent non-woven fabric, helps to isolate the surgical site from the other areas of the patient's body and nonsterile areas of the OR table to contribute to reducing the risk of surgical site infection (SSI). The fabrics meet IS17334, AAMI PB 70, EN13795 standards ⁽¹⁾. The fabric used in making the drapes are resistant to fluid penetration, fluid concentration, and blood strike-through, they are free from skin irritation, skin sensitization, and cytotoxicity. ⁽²⁾ also resist microbial penetration ⁽³⁾, virtually lint-free, and abrasion-resistant ⁽⁴⁾. Trinox Cardiology drapes are pouch packed in certified and validated packs that meet EN868 -5 and ISO 11607-1 standard ⁽⁵⁾ and finally, EO Sterilised as per ISO 11135 standards. ⁽⁶⁾

Product Name

Medimaf - Femoral Angiography Drape Ultra

Size

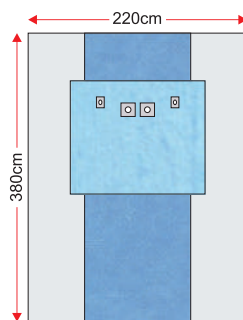

350cm * 220cm

Product Code

MFFAD3522

Description

Medimaf Femoral Angiography Drape Ultra of size 350cm*220cm having two femoral fenestration of 8cm diameter, reinforced with absorbent layer for better fluid absorbency, transparent plastic windows on both side of the drape.

Product Name

Medimaf - Radial Femoral Angiography Darpe

Size

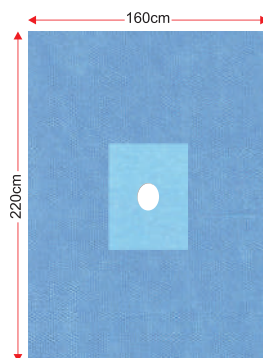

380cm * 220cm

Product Code

MFFAR3822

Description

Medimaf Radial Angiography Drape of size 380cm*220cm having femoral Circular fenestration of 8cm, and radial oval fenestration of lenth 9cm, reinforced with absorbent layer for better fluid absorbency, transparent plastic windows on both side of the drape.

GENERAL SURGERY

DRAPES & PACKS

LAPAROTOMY DRAPES

Medimaf Laparotomy Drapes made from polypropylene SMMS non-woven fabric, absorbent non-woven fabric, helps to isolate the surgical site from the other areas of the patient's body and nonsterile areas of the OR table to contribute to reducing the risk of surgical site infection (SSI). The fabrics meet IS17334, AAMI PB 70, EN13795 standards⁽¹⁾. The fabric used in making the drapes are resistant to fluid penetration, fluid concentration, and blood strike-through, they are free from skin irritation, skin sensitization, and cytotoxicity.⁽²⁾ also resist microbial penetration⁽³⁾, virtually lint-free, and abrasion-resistant⁽⁴⁾. Laparotomy Drapes are pouch packed in certified and validated packs that meet EN868 -5 and ISO 11607-1 standard⁽⁵⁾ and finally, EO Sterilised as per ISO 11135 standards.⁽⁶⁾

Product Name Medimaf - Laparotomy Drape

Size 300cm * 160cm

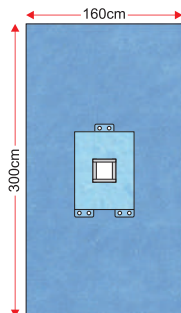

Product Code MFLP3016

Description

Medimaf Laparotomy Drape of size 300cm * 160cm, having fenestration size of 30cm * 15cm with adhesive around fenestration, reinforced with spunlace absorbent laminate around fenestration for better fluid absorbency, supported with tube holder for tube and cord organiser.

LAPAROSCOPY DRAPES

Medimaf Laparoscopy Drapes made from polypropylene SMMS non-woven fabric, absorbent non-woven fabric, helps to isolate the surgical site from the other areas of the patient's body and nonsterile areas of the OR table to contribute to reducing the risk of surgical site infection (SSI). The fabrics meet IS17334, AAMI PB 70, EN13795 standards⁽¹⁾. The fabric used in making the drapes are resistant to fluid penetration, fluid concentration, and blood strike-through, they are free from skin irritation, skin sensitization, and cytotoxicity.⁽²⁾ also resist microbial penetration⁽³⁾, virtually lint-free, and abrasion-resistant⁽⁴⁾. Laparoscopy Drapes are pouch packed in certified and validated packs that meet EN868 -5 and ISO 11607-1 standard⁽⁵⁾ and finally, EO Sterilised as per ISO 11135 standards.⁽⁶⁾

Product Name Medimaf - Laparoscopy Darpe

Size 300cm * 160cm

Product Code MFLD3016

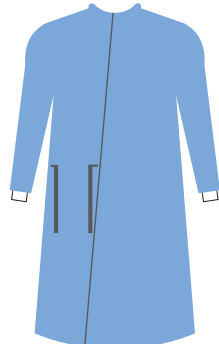

Description

Medimaf Laparoscopy Drape of size 300cm * 160cm, having fenestration size of 30cm * 30cm with adhesive around fenestration, reinforced with spunlace absorbent laminate around fenestration for better fluid absorbency, also supported with tube holder for tube and cord organiser.

Lamino Spinal drapes are pouch packed in certified and validated packs that meet EN868 -5 and ISO 11607-1 standard^{**5)} and finally, EO Sterilised as per ISO 11135 standards.

Product Name Medimaf - Lamino Spinal Drape SD

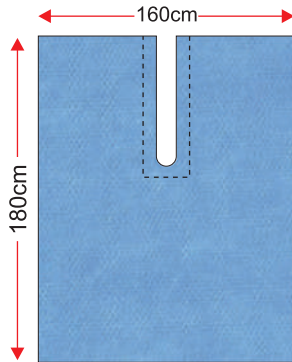

Size 340cm * 160cm

Product Code MFLSD3416

Description

Medimax Lamino Spinal drape SD of size 340cm * 160cm, having fenestration size of 35 cm * 17 cm with incise film and adhesive tape around fenestration, reinforced with spunlace absorbent around fenestration, backdrop reinforced for better protection from fluid penetration and concentration, supported with 2 pockets for placing instruments, tube holders for the tube, and a cord organizer.

ORTHOPAEDIC DRAPES

Product Name Medimaf - Split U Drape

Size 180cm * 160cm

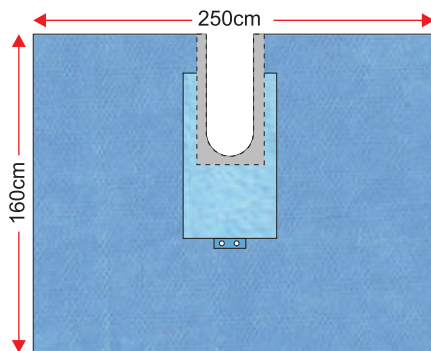

Product Code **MFSU1816**

Description

Medimaf Split U Drape of size 180cm * 160cm, having U Split 10cm * 60cm with adhesive around U split, backdrop reinforced for fluid repellency, supported with tube holders for tube and cord organiser.

SHOULDER DRAPES

Medimaf Shoulder U drapes made from polypropylene SMMS non-woven fabric, absorbent non-woven fabric, helps to isolate the surgical site from the other areas of the patient's body and nonsterile areas of the OR table to contribute to reducing the risk of surgical site infection (SSI). The fabrics meet IS17334, AAMI PB 70, EN13795 standards. The fabric used in making the drapes are resistant to fluid penetration, fluid concentration, and blood strike-through, they are free from skin irritation, skin sensitization, and cytotoxicity. They also resist microbial penetration, virtually lint-free, and abrasion-resistant. Shoulder U drapes are pouch packed in certified and validated packs that meet EN868 -5 and ISO 11607-1 standard and finally, EO Sterilised as per ISO 11135 standards

Product Name Medimaf - Shoulder U Drape SD

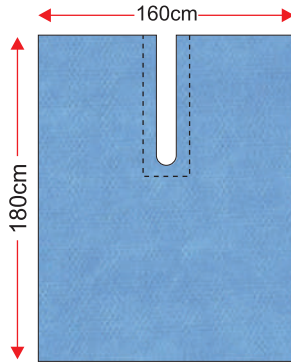

Size 250cm * 160cm

Product Code **MFSU2516**

Description

Medimaf Shoulder U Drape SD of size 250cm * 160cm, having U Split 25cm * 45cm with adhesive around U split, reinforced with spunlace absorbent layer around the split, helps to manage fluid absorbency. Supported with tube holder for tube and cord organizer

SHOULDER DRAPES

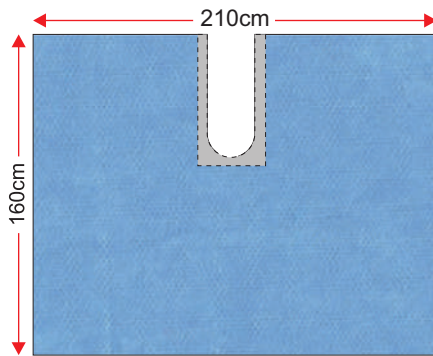

Product Name Medimaf - Split U Drape

Size 180cm * 160cm

Product Code MFSU1816

Description

Medimaf Split U Drape of size 180cm * 160cm, having U Split 10cm * 60cm with adhesive around U split, backdrop reinforced for fluid repellency, supported with tube holders for tube and cord organiser.

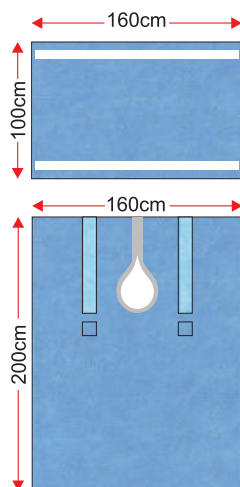

Product Name Medimaf - Shoulder U Drape Neo

Size 210cm * 160cm

Product Code MFSUB2110

Description

Medimaf Shoulder U Drape Neo of size 210cm * 160cm, having U Split 25cm * 45cm with adhesive around U split, backdrop reinforced for managing fluid penetration and concentration.

Product Name Medimaf - Shoulder U Drape Eco with Screen Drape

Size Shoulder U Drape Eco 210cm * 160cm
Screen Drape 100cm * 160cm

Product Code MFSES2016

Description

Medimaf Shoulder U Drape Eco of size 200cm * 160cm, having straight split of size 2cm * 15cm and a round cut 16cm, with adhesive around U cut, backdrop reinforced for fluid repellency, supported with absorbent pads 50cm * 10 cm across U cut and 2 tube holders, supported with a head sheet or screen sheet of size 160cm * 100cm having adhesive on both edges

Description	Sterile disposable SS laminated, impervious instrument trolley or back table drape, available in small, medium and large size. Reinforced for better protection.

Product Name	Mayo Trolley Cover
Product Code	MFMTTC1480 Size : 140cm * 80cm (Large)
	MFMTTC8080 Size : 80cm * 80cm (Small)
Description	Disposable SS laminated Mayo trolley drape.

Product Name	Mayo Trolley Cover Reinforced
Product Code	MFMTR1480 Size : 140cm * 80cm (Large)
	MFMTR8080 Size : 80cm * 80cm (Small)
Description	Disposbale SS laminated, impervious Mayo trolley drape, additionally reinforced with absorbent layer.

Product Name	C- Arm Drape
Product Code	MFCAC011P Size : Standard - 1 Piece
	MFCAC012P Size : Standard - 1 Pair
Description	Medimaf C-Arm Drape, are made from LDPE material, helps to protect the equipment and manage visibility of equipment.

Product Name	C-Arm Drape Full
Product Code	MFCAC013P
Size	Standard - 3 Piece
Description	Medimaf C-Arm Drape full, are made from LDPE material and or non-woven fabric, helps to protect the equipment and manage visibility of equipment.

Product Name	Endoscopy / Camera Drape
Product Code	MFEDC01
Size	Dia 15cm* Length 250cm
Description	Medimaf Endoscopy / Camera Drape are made from LDPE material, helps to protect the equipment and manage visibility of equipment.

Product Name	Ultrasound Probe Drape
Product Code	MFUS01
Size	Dia 15cm* Length 250cm
Description	Medimaf Ultrasound Probe Drape are made from LDPE material, helps to protect the equipment and manage visibility of equipment.

Product Name	Surgical Microscope Drape
Product Code	MFSM01 Size : Width 120cm* Length 300cm MFSM02 Size : Width 120cm* Length 270cm
Description	Medimaf Surgical Microscope Drape are made from PE material, helps to protect the equipment and manage visibility of equipment.

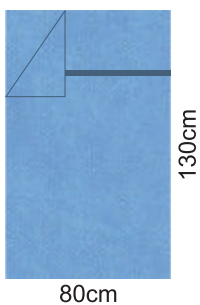

Product Name	Hand Towel
Product Code	MFHT3030
Size	30cm * 30cm
Description	Soft non woven spunlace fabric for assured hygiene.

Product Name	Cling Drape
Product Code	MFCNG01 MFCNG02
Size	Width 15cm* Length 5mtr Width 15cm* Length 10mtr
Description	Transparent natural colour low density PE film, used to drape extremities during surgical procedures

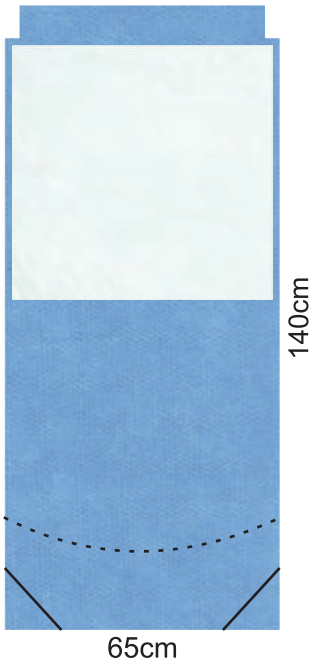

Product Name	Impervious Stockinette	
Product Code	MFSK01S	Size : 80cm * Dia 15cm
	MFSK01L	Size : 120cm * Dia 15cm
Description	Ribbed kintted cotton Stockinette for draping extremities during surgical procedure. Enhanced with PE film to make it impervious.	

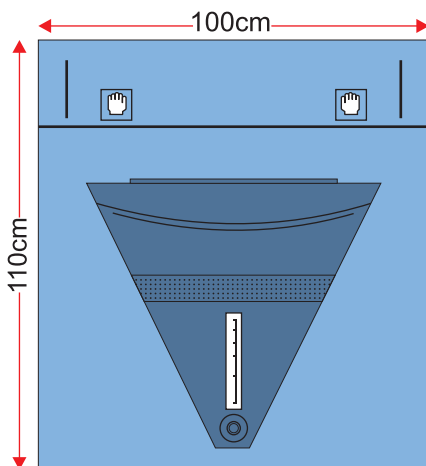

Product Name	Leggings
Product Code	MFLG01P
Size	130cm * 80cm
Description	Non woven SMS Fabric,used for draping legs during surgical procedure, provided as pair.

Product Name	OP Release Tape	
Product Code	MFOP4010	Size : 40cm *10cm
	MFOP0515	Size : 5cm *15cm
Description	SMS release sheets having adhesive on one side to secure drapes and covers in operation theater.	

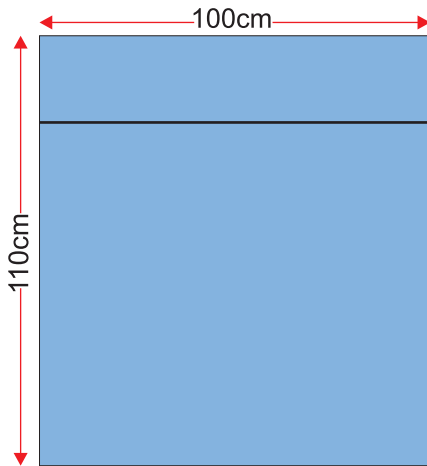

Product Name	Maternity Mat with Pouch
Product Code	MFMM1465
Size	140cm *65cm
Description	Maternity mat with pouch are laminated non woven fabric with attached absorbent underpad for fluid absorption, having a pouch at the bottom from the same laminated non woven fabric for collecting excess draining fluid.

Underbuttock Drape

Product Name	Underbuttock Drape
Product Code	MFUBD1011
Size	100cm * 110cm
Description	Disposable underbuttock drape made from linear low density PE, with graduated fluid collection pouch with suction port.

Underbuttock Drape

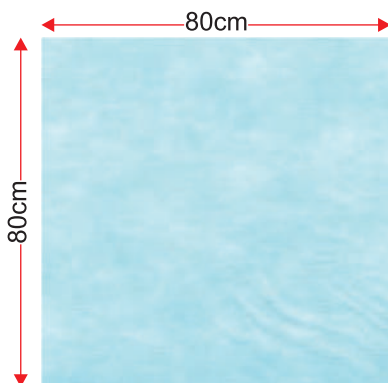

Product Name	Underbuttock Drape
Product Code	MF PUB1011
Size	100cm * 110cm
Description	Disposable underbuttock drape made from linear low density PE.

Product Name	Underbuttock Absorbent Pad
Product Code	MFUDP6090
Size	60cm * 90cm
Description	Disposable absorbent underbuttock pad.

Product Name	Poly Apron
Product Code	MFPA01
Size	Standard
Description	Aprons made of low density PE film to protect form fluid splashes

Baby Receiving Wrap

Product Name	Baby Receiving Sheet
Product Code	MFBRW01
Size	80cm * 80cm
Description	Wraps from virign non woven material for receiving and draping the new born baby.

Cord Clamp

Product Name	Cord Clamp
Product Code	MFCL01
Size	Standard
Description	Used for clamping the new born's umbilical cord

Product Name	Plain Sheet /Hygiene Sheet	
Product Code	MFPS01S	Size : 120cm * 60cm (Small)
	MFPS01M	Size : 120cm * 150cm (Medium)
	MFPS01L	Size : 120cm * 210cm (Large)
Description	Sterile disposable PE film sheets of 23-25 micron for multipurpose use available in white or medical blue colour.	

Product Name	Disposable Bed Sheet	
Product Code	MFBS16225	Size : 160cm * 225cm (Large)
	MFBS80225	Size : 80cm * 225cm (Small)
Description	Non Sterile disposable bed sheets made from non woven material	

Product Name	Disposable Pillow Cover	
Product Code	MFPC4880	
Size	48cm * 80cm	
Description	Non Sterile pillow covers made from non woven material	

Product Name	Disposable Bed Sheet and Pillow Cover Pack	
Product Code	MFBCP1680	Size : Bed sheet 160cm * 225cm, Size : Pillow Cover 48cm * 80cm
Description	Pack of non sterile disposable large bed sheet and pillow cover.	

Product Name	Operating Table Sheet (PE)	
Product Code	MFOT1260	Size : 120cm * 60cm (Small)
	MFOT1215	Size : 120cm * 150cm (Medium)
	MFOT1221	Size : 120cm * 210cm (Large)
Description	Sterile disposable Operating table sheets available in white or medical blue made of low density PE.	

Product Name	Operating Table Sheet (NW)	
Product Code	MFOTS1221	Size : 120cm * 150cm (Small)
	MFOTS1215	Size : 120cm * 210cm (Large)
Description	Sterile disposable Operating table sheets made from non woven fabric.	

Draw Sheet

Product Name	Draw Sheet
Product Code	MFDS1016
Size	100cm * 160cm
Description	Sterile non woven plain sheets for multipurpose use.

Product Name	Screen Drape
Product Code	MFSD2420 MFSD1612 MFSD1610
Size	240cm * 200cm 160cm * 120cm 160cm * 100cm
Description	Sterile non woven polypropylene drapes used as anesthesia screen or head drapes.

Isolation Gown

Product Name	Isolation Gown
Product Code	MFGIS01
Size	Standard
Description	Isolation gown meets AAMI level 1, helps to protect frontline caregivers and staff from infectious droplets, fluid penetration and solids.

Face Mask

Product Name	Face Mask
Product Code	MFFM01
Size	Standard
Description	3 Ply, disposable surgeon face mask, with nose piece, available in a pack of 100 nos.

Bouffant Cap

Product Name	Bouffant Cap
Product Code	MFBFC01
Size	Standard
Description	Disposable head caps, made from breathable light weight virgin non woven fabric with elasticated edge, available in a pack of 100 nos

Surgeon Cap

Product Name	Surgeon Cap
Product Code	MFSC01
Size	Standard
Description	Disposable breathable non woven surgeon caps, available in pack of 100 nos.

Goggles

Product Name	Goggles Goggles (P)
Product Code	MFGG01 (Premium) MFGG02 (Normal)
Description	Safety glasses to protect eyes from splashes, chemicals, etc.

Face Shield

Product Name	Face Shield
Product Code	MFFS01
Size	Universal
Description	Disposable face shield to protect from splashes, chemical etc.

Hood Helmet

Product Name	Hood Helmet
Product Code	MFHN01
