

Mafatlal Technologies wins ‘Innovation for the Last Mile in Education’ Award at ELETS World Education Summit 2025

~ The recognition underscores the company’s commitment to bridging learning gaps through technology-led education and inclusive digital infrastructure ~

Mumbai, November 06th 2025: Mafatlal Technologies, the digital solutions arm of Mafatlal Industries Ltd., a 120-year-old leading name in Indian textiles, has been honoured with the “Innovation for the Last Mile in Education” Award at the ELETS World Education Summit 2025. This award celebrates the company's commitment to empowering every learner through the transformative power of digital innovation.

Mafatlal Technologies is redefining educational access for remote and economically challenged regions. Through pioneering initiatives, including smart classroom infrastructure and inclusive learning management systems, the company is enabling both educators and learners to bridge gaps, foster equity, and unlock new opportunities for holistic education.

Speaking on the recognition, **Mr. M. B. Raghunath, Chief Executive Officer, Mafatlal Industries Ltd.**, said, “This award embodies our commitment to turning vision into reality for the nation’s most underserved learners. Mafatlal Technologies is ensuring that advanced, accessible technology reaches classrooms in even the most remote and rural corners of India. Our mission is to deliver scalable solutions that strengthen public education and accelerate the responsible digitalisation of learning, empowering every teacher and student to thrive in an evolving world.”

This acknowledgement is the next landmark in the long-term transition of the Arvind Mafatlal Group, going beyond its initial domain of textiles, into technology, while being grounded in the same core principles of innovation, integrity and impact. Being an extended arm of Mafatlal Industries Limited, the company is committed to its mission of creating eco-friendly, digitally enabled infrastructures for India's future.

About Mafatlal Technologies:

ARVIND MAFATLAL GROUP
The ethics of excellence

Mafatlal

Mafatlal Technologies, a subsidiary of Mafatlal Industries Limited, designs and deploys technology-led education and digital infrastructure solutions. It provides AI-enabled platforms designed to transform schools into collaborative, data-driven, and NEP-ready ecosystems. Its technology empowers dynamic lesson planning, adaptive and personalised learning journeys, hybrid classroom experiences, and real-time evaluation of learning outcomes while proudly preserving the unique teaching methods of each educator. The company partners with multiple state education departments, contributing to India's digital transformation through scalable and inclusive models.

About Mafatlal Industries Limited:

Mafatlal Industries Limited, the flagship company of the Arvind Mafatlal Group, stands as one of India's most enduring and trusted names in textiles, with a legacy spanning over 120 years.

As a pioneer in innovation and quality, Mafatlal's portfolio today covers an extensive range of suiting, shirting, voiles, white fabrics, and specialized uniform textiles catering to schools, corporates, healthcare, manufacturing, and hospitality sectors across India and overseas. Expanding beyond its textile leadership, the company's Health & Hygiene division manufactures a diversified range of adult and baby care products, feminine hygiene essentials, and medical disposables, strengthening its presence in the consumer and institutional segments.

Building on its legacy of innovation and excellence, Mafatlal has strategically diversified into Digital Infrastructure and Consumer Durables, reflecting its forward-looking approach and commitment to national growth priorities.

With an unwavering focus on quality, reliability, and trust, Mafatlal Industries continues to evolve, blending heritage with modernity to meet India's dynamic institutional and consumer needs.
